For the express purpose of retailing their goods to consumers at WHOLESALLE PHILES. The imprense profits which have heretofore been put upon teas and confects by the producers, the importers, the jobbers, brokers, speculators, wholesale dealers and finally by the retail coun-try merchants, have so enhanced the prices of these essential articles of every-day life, that many consumers have been obliged to stint themselves, or abstaln altogether from the use of Tess and Coffrees. It is a fact well known, to those who are familiar with the condition of the tea market, that these goods are frequently re-tailed by small dealers in the country at twice-or thrice their original value, and even then are so adulterated and doctere ey unprinciple apec-ulators as to be really unit for the uses of any good and well provided household. We do not see why this should longer contin-ue, and we therefore propose to retail our tens and coffrees in small quantitles to consumers, in all parts of the country, at importing prices, with such small profits added thereto, as in a widely extended and constantly increasing busi-ness nuay reagonably compensate us for our throwing we provide compensate us for our for a Fine dry building lots, cost from \$550 to \$750 each; \$50 in hand, balance on 6 years time; about 80 rods from the Public Square.
