HOT AIR FURNACE!

We call attention to the Littlefield Furnace with entire confidence that it is the best Warm Air Furnace ever invented, and radically overcomes the faults and objections existing in other Furnaces; and we feel sure that a careful examination of its superior merits in connection with the candid and unbiased statement of those who have had this Furnace in use during the past several whiters, will convince all that what we say is true.

We respectfully refer to the following among the many well known citizens who have this Furnace in use: Capt. J. S. RICHARIS, W. S. BROWN, Esq., ISAAC MOORHEAD, Esq.

Cider Mill and Press!

The points of superiority possessed by this Mill over all others, are as follows:

1. The Adjustable Throat, alapting the Mill to the various sizes and conditions of fruit.

2. The Adjustable Grindling Rollers for the same purpose. These two features are secured to us by Letters Patent. Without them no Mill can possibly be a perfect grinding apparatus, as the different conditions of the fruit imperatively demand this adjustability.

3. A neat metallic box to hold the bearings of the gearing, preventing the same from gettingout of order, from the swelling of the wooden sides and ends.

4. The strong compact frame for Mill Press, with well proportioned bearings for its support.

5. A strong iron beam, with a two inch screw, enables us to give the poinage a powerful pressure.

6. The Grindling Apparatus is the most perfect.

aire.
6. The Grinding Apparatus is the most perfect n use, consisting of three horizontal rollers,

In use, consisting of three horizontal follers,
one above and two below; the upper one has straight flanges for the purpose of breaking the
fruit against the adjustable rubber throat as it passes through. On one of the lower rollers the
ribs are oblique or spiral, and as it revolves it presents to the straight ribs of the other a continuous cutting edge, canabling us to cut the pomace from the skins of the apples, leaving them in
such size as to obviate, in most cases, the necessity of using straw, which is found to be deleterious to the quality of the cider.
7. The Strainer Board, under the tubs, by means of which we are embled to express the cider
as completely from the bottom as from the top of the cheese, leaving it nearly dry in all parts.
This valuable feature is secured to us by strong Letters Patent. THE BUCKEYE CIDER MILL!

is undoubtedly the best yet invented. Call and see it. An inspection of the above named articles is solicited. They are the leading ones in the market, and can be obtained in Eric only of W. W. PIERCE & CO., 832 State St.

It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

This compound will be found a great promoter of health, when taken in the spring, to

are nipped in the bud. Multitudes can, by
the aid of this remedy, spare themselves from
the endurance of faul eruptions and ulcerous

Even where no particular diseaser is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no, lasting health. Saraparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Saraparilla, or any thing else.

contain but little of the virtue of Sorsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly desniged, and has become sarsparilla which nood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarse parilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the eddinger with the discount it is bright. by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

As it has long been in constant use throughout this acction, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
