A SUBJECT FOR THE TAX PAYERS' CON-IDERATION .- The rapid increase of the exenses for the support of the poor of the ounty is a subject which demands the imnediate and serious attention of our people. When the last report of the Poor Directors as published, we took occasion to allude to he matter in a tone of mild criticism, and nce then facts have come to our knowle ge which more than ever convince us of necessity for a thorough investigation. A orrespondent of the Gazette, who has taken he pains to foot up the various reports of Directors from 1850 to the present year, mishes some information which is calcuated to startle the community. We learn ion his statement that in .1850 the amount hav assessed was \$2,000, of which there an unexpended balance of \$950 at the scof the year. In 1855 the tax had ineased to \$4,500, and the salaries paid to ficers was \$926. In 1860, the tax had erly doubled, amounting to \$8,000. The mber of paupers had also grown to enorus proportions, being in the latter year indoor, 612 outdoor, and 523 transient, unst only 97 indoor in 1855. In 1865, the genses had increased still more largely, amount of tax collected being given a \$11,000, with a debt at the end of the year \$2,000. This sum is out of all proportion the number of paupers, the total of inor being 83, of outdoor 616, and transient 30. But it the enormous increase in the exense for 1865 astonishes the public, what

ust they think of that for 1866, when it d gone up to \$18,952, and of that for 1867, hich we are informed is about \$25,500 ! t the same rate of progress, it will not be ng until the cost of supporting the noor her expenses of the county. The corres wdent of the Gazette says :

It is also rumored that the Directors estithat \$35,000 will be necessary to sup the poor of the county for the year 1868, ing debt created in 1867. It is contemthe by the Directors to erect new buildan early date, at an expenditure of \$100,000, of which amount \$75,000 is to taised by taxation during the coming at, which will (if these rumors be correct) at the "poor tax" of Eric county to the ming amount of \$110,000.

> THE Titusville Herald says: "For some time past the progress of the new well on lease No. 21, on the side hill of the Benninghoff Farm, opposite Funkville, has attracted considerable attention, as it was known that it was located in a good producing locality On Saturday last it was pumped for the first time, when it became evident that it would prove to be a large producing well. It commenced to produce oil, on Saturday, afternoon, and the production steadily increased until it produced by measurement fully two hundred and fifty barrels per day. This is now the largest producing well in Oildom, or anywhere else." It seems christs to read about a two hundred barrel well being the largest in Oildom, when we remember the monsters that existed during the "golden era" of that section, emittingsfrom two to three thousand barrels daily.
