At the opening of the year 1884, "The World" challenges, more confidently than ever, the sympathy and support of a patriotic citizens. A glorious work has been gloriously begun—Deep already answers deep. The lone fidenty of this journal to the suuse of liberty pro-cted by law stands nobly similaried in a s, le dor of victory shining from Maine to California. Connecticut, Ohio, Fennsylvania, New Jersey, New York, have thundered forth their verilet upon the misrule and madness of the past. But much more remains to be done. Nover was the peril of the country greate. The Radical party still decrees the do the or presentative self-government. It en soyreign States. Armed with military despotism and wholesale Negro Suffrage, it desperately grasps at a permanent lease of itary despotishment wholesale Negro Suffrage, it desperately grasps at a permanent lease of power, in defiance of public opinion, at the cost of enorm us taxes and of crippled industries, at the cost of Union and Peace. To the great battle still to be fought "The World" will give all its efforts, all its energies. It asks of its friends in their turn as much; it asks of them more readers and a wider influence. It asks this with confidence in its claims as a newspaper and as an organ of opinion.

The chief use of a Newspaper is to give its readers.

ALL THE NEWS.

For this the facilities of "The World" are unsurpassed by any journal in the United States. It seeks to excel by an accuracy and candor, a spirit and freshness in its news columns which shall commend it to readers of whatever party, sex, care or place.
As an organ of opinion "The World" is the nuffinching champlon of A Liberal, Progressive Democracy,

whereof the corner stone is Freedom restrained by Justice; Freedom pure and simple, in the largest collective measure; the office of Justice being to protect Freedom from encroachments; Freedom of the individual citizen in his rights of though, speech, religion and locomotion; in his Right to make any money bargains he thinks proper in spite of foolish usury laws; in his Right to buy-and sell in all markets, done-stie and foreign, in spite of unjust protective terrifism his Right to choose his own food and drink, in spite of medile-onne temperance laws; in his Right to representation in the legislative bodies which tax him, in spite of unjusticational exclusions; Freedom of collective citizens to assemble for discussion of glevances; Freedom of all local communities to manage their local afairs without central interference; Freedom in and unconstitutional domination of other section of the country, from the arrogan tons. This large and comprehencive very section of

race. A paper published in the metropolis is naturally looked to for careful Market reports and authentic information, and intelligent discussions relating to Trade, Commerce and Finance. In these features "The World" invites com-parison with any other journal.

White Men Must Rule America. CLUBS FOR 1868...CLUBS FOR 1868. The Best New York Weekly Published. NEW YORK DAY BOOK! FOR 1868.

The New York hay-Book is a straightforward Radical Democratic paper, with a larger circulation than any other bemocratic jurned ever published on this continent, and it enters on the threshold of hes more prosperous and more hopeful of the great cause it upholds than ever before. Standing on the Deciaration of Independence, that "all twhife men are equal," and therefore entitled to equal rights, it is opposed to all forms and degrees of special legislation that connict, with this grand central truth of Democracy, and over all and above all, does not compat that monstrons gives on to American liberty, which, thusking the next element in to our political system, must of necessity week the whole mighty fabre left us by our fathers. God has created white men superior and negroes interior, and therefore all the efforts of the past six years to sholish His work and equalize with negros—every law violated, every State Constitution overthrown, every life secrificed, and the simple and awful proclem now upon us is just this—shall we recover our reason and retrace our steps, or march on to Mongreilsm, seedial anarchy, and the total ruin of our country.

The Day Book theretore, demands the restopreliam, social anarchy, and the total ruin of our country.

The Pay Book, therefore, demands the restoration of the "Union as it was "-a Union of co-requal states upon the white basis, as the only hope, and the only means possible under heaven for saving the grand ich as of 1773, and the fundamental priciples of American liberty, and if the real freemen, and the carnest believers in that sacred and "glorious cause in which the men of the Hevolution offered up their lives, will now labor to expose the ignorance, delusion and treason of the Mongrel party, it will succeed, and the white Republic of Washington be restored again in all its original influence and grandeur.

ceed, and the white responde to washingers be restored again in all its original influence and grandeur.

The Day Book will, however, hereafter be more than ever devoted to all the varied purposes of a news paper. Conscious that It reaches thousands of families who take no other journal, beyond perhaps their local paper, it will continue and improve its "News of the Week" Summary, so do to present a transcript of the World's except is meach issue. Its "Family Department" will embrace the best original and selected stories. Its "Agricultural Department" will be fully sustained, and being the only paper of its class made up expressly for country circulation, it is confident it is worth double the price of a weekly incriedly reprinted from a daily. It gives tull and complete reports of the New York and Albany Cattle Markets, timin. Pravisions and Cotton Markets, and a Weekly teview of Financial matters, together with the markets, by telegraph, from New Orleane, Cairo, Charleston, Philladelphia, &c., up to time of going to press.

humorous incidents of the war. Splendidly illustrated with over 100 fine portraits and beautiful engravings.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, canvey to succeeding generations a better idea of the spirit of the conflict than many dry reports of careful narratives of events, and this part may be called the gossin, the fun, the pathes of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The valiant and brave hearted, the picturesque and dramatic, the witty and marvelous, the tender and pathetic, and the whole panoram of the war are here thrillingly portrayed in a masterly manner, at once historical and romantic, rendering it the most ample, unique, brilliant and readable book that the war has called forth.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history, are skillfully interwoven in this work of literary ari.
