LETTER FROM GEN. KILLPATRICK. I hereby certify that I have used the "Mercler Flexible Harrow," the right of which for this find that I can accomplish one-third more with this machine than with any other I am ac-quainted with. It combines the quainties of highness, cheapness and durability, and is the most perfect harrow that I have ever seen. It can be easily changed into a cultivator for Corn and any boy large enough to drive a term can readily and easily take it apart and put it to-gether argin. I most cheerfully recommend my friends and acquaintances to buy this ma-chine, as I consider it allogether the best in use. LETTER FROM DR. JOHN S. CARTER. Having witnessed the operation of this Har-row at the trial on the land of Gen. Killpatrick, on the 1×th of June. I have no hesitation in say-ing that I believe it to be a very superior imple-ment of its class, and quite worthy the atten-tion of all who have occasion to use such an ar-ticle. Its fexibility—which causes it to adapt itself closely to the surface of the ground, how-ever rough or uneven it may be is a feature of much importance, and one that distinguishes this form'all other Harrows. There are also other peculiarities in its construction which will be readily perceived by the intelligent far-mer, and which will doubtless tend, ere long, to bring it into general use.
