The farmer with his land, and the mechanic with his house, pays one-fifth more tax than is fairly his share, solely because his wealthier neighbor, who happened to have some spare means during the war, saw proper to invest it in bonds, in preference to building up improvements in the place of his residence, which would have promoted the prosperity of the neighborhood at the same time that it benefited himself. This fact is too plain for misunderstand. If these bonds were taxed,

The same state of affairs which exists in Waterford prevails to a more or less extent to fill the vacancy caused by Mr. Finney's in every township, borough and ward in the county. WE have carefully read the glowing reports of the Radical mass meeting at Corry, on Tuesday, as given by our Radical cotemporaries, and are compelled to own up that it must have been a monster assemblage. The attendance, we are led to believe; could not have numbered less than a million people. The procession was huge, and eclipsed anything before seen. THE "irrepressible conflict" between the two factions of Radicalism in our county has broke out afresh over the selection of Hon. John H. Walker for President of the meeting facts, and judge for themselves whether such to-day. The Lowry men are anything but mealy-mouthed over what they call the indelicacy of the Chairman of the County Committee in choosing his own father to preside over the big meeting of the campaign.

At every fire that occurs there is a certain class of people who are very free in their criticisms of the management of the fire department. Now, the wonder is that these gentlemen, who know exactly what ought to be done, don't become firemen themselves and remedy the faults of which they complain. It strikes us that a class of men who Then by this time they must be very do as much hard work for nothing as the firemen, ought to receive some other recompense than incessant fault finding.

It seizes anything that it can relations that have long existed between us and Mr. S., we have always taken more than ordinary interest in its welfare. We its blunders or falsehoods are exposed, as we are very glad to see that it is in so prosperous a condition.

THE proprietors of the Titusville Herald, in writing to the Phila. Our friends of the Herald print a good paper, and it is descrying of as it undoubtedly secures, a wide circulation, but that of the Observer still exceeds it as we mean that it always shall, that of any other paper in this section. We cannot do better than repeat its request of the Press, that "the retraction will be prompt, complete, and conspicuous, and as generous as its blunder was mortifying and presumably damaging."

THE Warren Mail denies, on the authority of Judge Scofield, we presume, that he "was officious in ousting Young, of Kentucky and admitting McKee to a seat in Congress. In the Committee on Elections," it says, "Judge Scofield with Judge Poland, of Vermont, invariably voted for admitting the Kentucky members. When the case came up in the House he neither engineered it nor voted for McKee! Mr. Cook, of Illinois, had the case in charge as the records will show." The occasion was a club meeting for the Fourth district, and, though, no handbill had been circulated, there were seventy-five persons present by actual count-more, we vill venture to assert, than has convened at any Radical assemblage in the city under the ame circumstances. IF Democrats had scores of office holders and expectants to furnish the money, they might indulge in such luxuries as processions, torch-light parades, &c., in a style similar to the Radicals. As they have none now, have not had for eight years, and do not anticipate getting any through local sources, their means are necessarily limited, and they are compelled to use what little.

Two months ago we proposed to the editors of the Meadville Republican that, if they would publish through their paper the specch of Geo. H. Pendleton, delivered in West Virginia, on the Bond question, we would publish through their Democrat an equal amount of matter, on the same subject, to be selected by themselves. Biddle had a sleeping room on the second floor, from which he escaped by means of a in the Fourth Ward on Friday evening, ladder furnished by Mr. G. A. Mr. Lowry had an insurance of \$8,500 on the building; Messrs, Morrison & Dinsmore had 6,000 insurance, which will cover their loss; and the furniture of the synagogue was insured for \$300. The circumstances attending the breaking out of the fire, lead to the aries. For a time the new Wayne Hall was furniture. The "fire fiend" seems to have a special spite against Mr. Grant, this being the fifth occasion, we believe, in which it has driven him from his quarters.

WE ask in all seriousness if any of Mr. Scofield's friends can inform us whether he ever drew that extra pay which was voted him three years ago while he was asleep? In the last campaign he said he had never drawn it out of the Treasury, and never intended to do so! But we are nearly certain he has done so since, leastwise he has been charged with it, and so far as we know, has offered no denial, either orally verhally.—Elk Advocate. Our cotemporary is informed that neither Mr. Scofield nor his friends will either answer yes or no to the question. We have

put it to them for four weeks, and they are as mum as an oyster. The public can construe their conduct in but one sense, and there are few persons in this county who doubt that Mr. Scofield did take the extra pay, notwithstanding his promises to the contrary. Or the ten "distinguished speaker," nnnounced to be "positively present" at the Radical mass meeting to-day, eight are rene-

gade Democrats, viz. Sickles, Wilson, Cameron, Putnam, Hartranft, Brewster, Scoffeld and Schluembach; and the remaining two, Curtin and Lawrence, were both bright and shining lights of Know-Nothingism. It must be grateful to the fullest degree for old Whigs, like Messrs. Walker, Reed, Babbitt and Sterrett, and the numerous foreign born members of the party in our city, to receive their political inspiration from such sources.

Turn death of Mr. Finney necessitates the election of a Congressman to fill his vacancy. and both parties in the Crawford district are preparing to select nominees. Judge Pettis is being urged by his friends, but the Meadville Republican suggests the choice of some their local strifes. It would save trouble for each side to select the candidate it already friends see to having them properly distribuhas in the field.

THE following paragraph appears in the Harrisburg Patriot of Friday last : Harrisburg l'atriot of Friday last:

"The State Guard still urges us to publish Scofield's speech. When the Patriot becomes so destitute of news as to be compelled to choose between publishing such a tissue of barefaced, unmitigated falsehoods as Glenni W. Scofield's speech is made up of, and, a blank sheet, it will choose the latter. The Guard may suit its own taste in such matters, and so shall we."

The bark Claugh went ashore twelve miles this side of Cleveland during the gale on Tuesday night of last week. She was owned by J. S. Reed, of Black River. All on board were lost except the second mate, Rush Reed, who clung to a spar, and after remaining in the water thirty-six hours, was picked up by the schooner Harmon and taken to Cleveland. Seven persons were drowned.

The absence of Mr. Scofield will deprive a large number of his supporters from hearing that celebrated cat story, which promises to attain a reputation equalling "Sinbad the Sailor" in its best days. A great many ardent Radicals in the interior, who have not yet been treated to this wonderful piece of witticism, and were waiting for it with painful anxiety, have gone almost crazed over the disamointment.

THE Gazette compares our two dailies to a rat-terrier and a turtle, "and whether the terrier crunches the turtle's head or the turtle bites off the terrier's tail-the result will be equally amusing, and faithfully noted by the Gazette." LETTIN FROM DR. JOHN S. CARTER.

Having witnessed the operation of this Harrow at the trial on the land of Gen. Kill pattlers, on the 18th of June, I have no hesitation in sating that I believe it to be a very superior implement of its class, and quite worthy the attention of all who have occasion to use such an article. Its flexibility—which causes it to indeed itself closely to the surface of the ground, however rough or uneven it may be, is a feature of much importance, and one that distinguishes this from all other Harrows. There are also other peculiarities in its construction which will be readily perceived by the intelligent former, and which will doubtless tend, ere long, to bring it into general use. I have purchased one of these Harrows for use on my hand.

Manufactured and sold by the undersign i, who guarantees the Harrows to give entire is isfaction.
