AN OIL CREEK IN EUROPE.-By the for eign accounts we are told of newly discovered sources of mineral oil in Europe, which are being worked to a large extent. The latest and most important found are in Galicia. In the Western part of this province, it is said, petroleum abounds, principally in the mountains enclosed by Limanowa, Neusandec, Grybow, Cieskowice, Gorlice, and Sbyszyce. The superficial area covered by the basins discovered probably amounts to about 50,000 acres. The soil is represented to be so impregnated with the oil that it frequently issues in the form of small springs, and it is only necessary to bore a few feet below the surface soil to reach an ample deposit. Sufficient importance has been attached to the discovery to induce the employment of several American geologists and encording to the accounts received from these parties, the little stream known as the Dunajee is in a fair way to become the Oil Creek of Europe. The authorities who have examined the article produced and visited the country consider that the petroleum found in Eastern Galicia is like that obtained in Canada, and that the article found in Western Galicia is almost identical with that found in Pennsylvania. It is stated that in the latter section there are sources which, for purity and abundance of yield, are not equalled by

Execution at Franklin.-Thomas Mc-Carty was hung at Franklin, on Wednesday, of last week, for the murder of David Barry, last May, in French Creek township, Venango county. It was the first execution ever We have not heard of any serious marine dis held there. The evidence shows the murder asters. to have been deliberately planned and most revolting in its nature. with much kindness. He had staid several days, when one night as Barry and his wife lay in bed they were aroused by the snapping of a percussion cap. Looking up, they saw McCarty standing by their side with a revolver in his hand. Barry, thinking Mc-Carty to be in sport, said "Oh, Tom be quiet," when the latter replied "I'll kill the county, and no person coming in from pair o' ye.". At all elections, as is well known, both parties usually have tickets printed nearly similar to feel a delicacy in having their position known to the other side. To head off this class of persons, the Republican managers of this county went to the trouble of having headings specially engraved for each election. Their tickets were carefully printed, and parties stationed to watch over the workmen so that none were extracted, the forms destroyed or put under lock and key as soon as the press work was finished, only the most reliable party wheel-horses were entrusted with their distribution, and all were cautioned to allow none of the sheets to get into the hands of Democrats before election day. Strange to tell, the Democracy obtained possession of as many as they needed, and all these painful precautions proved of no avail. The shrewd men who manavured the matter never imagined for a moment that it was an easy thing to paste their snug ly engraved headings at the top of the list of Democratic electors in the one instance, and to use "stickers" in the other, thus obviating all difficulty at small expense and trouble The Democracy owe these gentlemen thank for putting them on the track of a plan by which they will obviate the cost of getting up extra tickets at every election.

> GEN. THOMAS A. ROWLEY, United States Marshal for the Western District, was in the city last week, on business connected with his office. Gen. What can the above mean? Is it a slap at nt into the Senate, "a few months ago," for Surely the Colonel was never in sympathy with "the Johnson wing of the Democracy." or if he was, he has done sufficient penance he has displayed at the head of that patriotic party fealty seem the basest ingratitude!

"The human hair, bleached by age, fright or disease, can be fully restored to its natural disease, can be fully restored to its natural color without dyeing it. My case illustrates this statement truthfully. My hair for seventeen years has been gradually growing white and falling out; but, lo! in a short time I have back my old auburn locks. It was unhappy for the fisherman, and spoils the story somewhat, that just about the time he got ready to hand the monster into his boat, after playing with him for a long time, "the middle bar of his trolling hook" was broken, Mr. Muscalonge restored to liberty, and the thousands who would have rushed to see his portly form, disappointed.

The child was about ten days old, has pretty features, was well dressed, and a nursing bottle lay by its side. No clue being found to its mother, it has been placed in the family of Conductor McDonald, of the C. & E. R. R.

In a recent canvass of the passengers of a railroad train, the person who was making it sportively asked a grim, solemn old lady which way she should vote. She didn't understand his question. According to the Republican, a man named Shaw, of Dunkirk, undertook, on Friday last, to walk from Swanville to Buffalo, one hundred miles, in twenty hours. A wager of \$5,000 was put up on the feat, \$2,000 of the same to be Shaw's, if he succeeded. As we have heard nothing more of the enterprise, it was probably not accom-

A Female Man.

PARKERSBURG, VA., Oct. 14, 1868 ED. OBSERVER:-As I was formerly reader of your paper, I take this opportunity to inform you of a female-man that came here some time ago. Her home is in Elk Creek, Eric Co. She came here with triends, Creek, Eric Co. She came here with friends, calculating to teach school. Every time she was on the street nearly all noticed her peculiar actions, and suspected that she was in disguise. The police arrested her and took her before two physicians, who pronounced her a more fit subject to perform the duties and position of a man. She gave a history of herself since she was twenty-two years old. That since then, after a spell of sickness, which was caused by inflammation in the stomach, a change took place in her disposifrom your county, the police and physicians wished me to send you a report of the mystery, and have you publish it in your paper Strange it may be, but it is true.
