Hon. M. B. Lowny was prostrated by paralytic stroke, while taking dinner at his boarding house, in Harrisburg, on Monday. This is the second visitation of the disease, and his friends have gloomy forebodings in consequence. At our latest information, he was much improved, but it is no tikely that he will be able to resume his seat in the Senate for some days.

VALUABLE EXPERIMENT.-Mr. G. F. Brevillier, the well known soap manufacturer, at the corner of Sixth and Holland streets, has applied the abandoned Seventh street Goat Gaiters, Kid Slippers see to be attended with important results to depot, on Saturday, boasted that he had a oil well to a practical purpose, which promthe community in general. All the large kettles in the building are heated by the gas, and suffcient is furnished to keep several in operation

at one time... Beside heating the kettles the gas warms the building, and supplies all the light needed. A simple apparatus at the well regulates the supply; and whenever more gas is furnished than the establishment requires, a self acting valve changes the current into the escape pipe. The whole arrangement is very ingenious, and well worth an examination. The gas exhibits no symptom of reduction in quantity or quality, and will save Mr. B. many hundreds of dollars yearly. He is of the opinion that the earth beneath our city contains sufficient gas, to afford all the heat and light needed for the use of the citizens, and believes that the time will come when its advantages will be generally availed of. Beside the establishment

mentioned, we believe, the works of H. Jarecki & Co., have been in part run, for a considerable period, with gas from another abandoned oil well. HALLE WARFEL -- One of the most pros-

HAWK.—In this city, on Saturday last, Erastus Hawk, in the 73d year of his age. MOORE.-Near Waterford, Dec. 29, 1868, Alexander Moore, Esq., aged 63 years.

The deceased was born in County Derry,
Ireland, June 4, 1805. In 1817 his father emigrated to this country with his family (Alexander being 12 years, old) and settled about ten miles below Pittsburgh, Pa. In 1819 he removed to Waterford, where he resided till the day of his death: His family

consisted of six sons and six daughters Two of the latter have, been deceased for number of years. Alexander was the second son of the family, and is the first to fall by the hand of death. His five brothers, all good citizens and heads of families survive him. In 1831, Alexander connected himself with In 1842, he was chosen a ruling elder, which office he held till removed by death.

In 1833, he was united in marriage to Miss Susan Lytle. He was therefore, a resident of Eris County 50 years—was a member of the church 38 years—was a ruling elder in the church 27 years—and was married 36 years. In all these relations, he was upright, discreet and, kind. He leaves a wile, one son, and three daughters to mourn their loss.

He had been troubled with rheumatism in one of his limbs, for two or three weeks

ors searched the phenices and work a connection between the Allantic & Great Western R. R. and our harbor; over that proposed from Jamestown, N. Y. The former route, he says, is only twenty miles in length, through a comparatively level country, with little bridging and easy grades. The Jamestown route is sixty miles long, the country rough, and numerous streams to be crossed. If these statements can be relied upon, there should be no hesitation which line to adopt, and if our citizens are wise they will waste no time in putting the proposed road under headway. A connection with the Erie road would enable us to secure new markets for our wholesale trade, that would be a recompense in part for those we have lost by the superior enterprise of Buffalo and Pittsburgh.

WESTERN ORIENTAL TEA COMPANY!

Would respectfully inform the citizens of Eric and surrounding country, that they

It is generally understood that Tea is retailed for a larger advance on its original cost than any other article in the long list of household stores, which may be partially accounted for by recollecting THE GREAT NUMBER AND-IMMENSE AMOUNT OF PROFITS which accumulate on it between the cultivation in China and Japan, and the consumers here, including the American Commission House there; the Importer, the Banker who furnishes the exchange; the middle men or speculators: the wholesale grocer, and the retailer. Each of these make large, and many of them enormous profits, from which it is evident that the consumer is compelled to pay many times the original cost for a pure article, or forced to use an adulterated or inferior one. pelled to pay many times the original conference one.

It is with a view to remedy this evil that our gigantic enterprise was formed over a year ago which has been a perfect success, and we have ventured to open a Store in Erie, so that we may better accommodate our customers west of New York State.

And in the following lists which we have selected with great care, will be found TEAS which

Everybody's Tuste and Everybody's Purse. Experience shows that the best are far the cheapest on account of their great strength and flavor. Our Coffee Department.

This is an immense institution of itself, and is undoubtedly the largest in the country. It is a fact generally understood that a large proportion of the Coffee imported is picked green and the pods opened by artificial heat. This is never so good as that which ripens naturally. The coffee buyers of this Tea Company thoroughly understand this, and examine nearly every cargo of coffee imported to the United States, and select only the full grown, field-ripened, for them, All the Coffee sold by this Company is ROASTED AND GROUND DAILY, by itemselves, insuring its absolute purity and freehness, which they guarantee. The Company are rossting all their coffee on a new minciple, which renders them garticularly pure, all acidity being removed by their process of cooking, enabling persons now to take coffee who have been obliged to discontinibly were.

The Company are doing an immense business in their Coffee Department, and selling more PURE COFFEES than any other house in the country. To assist customers in making up their orders, the following Descriptive List is offered by the Company with no little pride, as embracing the largest and most carefully selected assortment of Coffees ever opened in this country.
