WESTERN ORIENTAL TEA COMPANY!

It is generally understood that the retail dealer purchases more on a pound than any other article in the long list of household stores, which may be partially accounted for by recollecting THE GREAT NUMBER AND IMMENSE AMOUNT OF PROFITS which necessarily fall between the cultivator in China and Japan, and the consumers. Let us consider the American Companies Home Trade, the importer, the jobber, the wholesale grocer, and the middle men or wholesale grocer, and the retailer. Each of these make large, and many of them gigantic profits, from which it is evident that we could afford to pay more than double the cost for a pure article, and yet use an additional 50 per cent. in quantity.

Every body's business must be conducted on business principles, and the Company are determined to do a large business on small profits. Their motto is, "Quick sales and small profits." Their Teas are all imported in the original packages, and are guaranteed pure and unadulterated. Our Coffee Department.

This is an eminent institution of itself, and is undoubtedly the largest in the country. It is a fact generally understood that a large proportion of the Coffee imported is picked green and the pods opened by artificial heat. This is never so good as that which ripens naturally. The coffee buyers of this Tea Company thoroughly understand this, and examine nearly every cargo of coffee imported into the United States, and select only the full grown, field-ripened, for them. All the Coffee sold by this Company is ROASTED AND GROUND DAILY, by themselves, insuring its absolute purity and freshness, which they guarantee. The Company are roasting all their coffee on a new principle, which renders it extremely pure and acidity being removed by their process of cooking, enabling persons now to take coffee who have been obliged to discontinue its use.

The Company are doing an immense business in their Coffee Department, and selling more PURE COFFEES than any other house in the country. To assist customers in making up their orders, the following Descriptive List is offered by the Company with no little pride, as embracing the largest and most carefully selected assortment of Coffees ever opened in this country.

FARMERS OF ERIE COUNTY.

INGRAHAM'S

Combined Marker, Cultivator and Hiller,

MANUFACTURED BY

GEORGE B. SENNETT,

MEADVILLE, PA.

This is the most perfect and greatest Labor Saving Machine of the kind now known. The advantages of this implement over all others is not only that it cuts up, but also turns under and subdues the weeds and forms a suitable hill, leaving the soil light and therefore in a condition to retain moisture, which is only done by the extra height and peculiar curve of the tooth. They are made with shafts, or without. They can be adjusted to any width of row. The side teeth can be reversed to turn the soil to or from the rows. This machine is the only implement the farmer needs in the cultivation of corn or other coarse grains, planted or sown in rows. These machines have been thoroughly tested and are warranted to give satisfaction.

This certifies that we, the undersigned, purchased last season of P. Sennett, and thoroughly tested one of Ingraham's Curved Tooth, Double-Pointed and Adjustable Cultivators. It is arranged to do its work in a desirable manner in all kinds of crops in their different stages for which the Cultivator and Horse Hoe is used. It thoroughly pulverizes the ground, cuts and covers up the weeds, forms a light, flat hill, leaving little or no use for the hoe, and leaves the ground in a condition to retain its lightness and moisture. We recommend them as eminently adapted for cheapest, most durable and greatest labor saving machine of the kind we have ever used.
