SEE VICTORY FOR HUGHES.

Saratoga Thinks He Will Be Named Today. LONG CONFERENCE HELD. Leaders Talk Over Nomination For Hours Without Result—Efforts to Secure Secretary Root to Enter Field Against Governor Proved Unsuccessful.

Saratoga, N. Y., Sept. 15.—Renomination of Governor Charles E. Hughes by the Republican state convention at its session this afternoon seems the certain outcome of a battle in which most of the fighting has been done by the opposition.

No stone has been left unturned by the leaders who desired and still desire to prevent the governor's renomination, and there is still a chance that they will find some way to accomplish their purpose. It is not known as yet if they had reached some plan that might lead to success, but as the decisive hour approaches important observers see no means by which the governor's renomination can actually be accomplished, and the anti-Hughes leaders themselves begin to admit that their cause is probably hopeless.

Leaders Held Conference. A long conference of the Republican leaders of New York state was held in the Hotel States hotel. For hours the question of the renomination of the governor was debated, and then the conference broke up without any announced result.

Those present in the meeting included Chairman Woodruff, Secretary of State Root, ex-Governor Odell, National Committee Chairman Charles F. Smith, Senators White and Raines, State Committee Chairman Hendrick, Admiral Fessenden, Governor Odell, and many others.

Hughes' Strength Develops. Detailed reports from the county delegations, some of which announced developed decidedly more strength for the renomination of the governor than any of the polls had shown before.

It is reported that, while the renomination of Governor Hughes may be effected on the first ballot, a bitter fight will come on the other places on the ticket, and the platform.

There were indications that there would be a struggle over the platform as bitter as that which seems to have come to its crisis over the gubernatorial nomination, and even more so.

It is reported that Mr. Root had the leaders who could not think of taking the nomination, "I am the candidate of the party," and that he should be such a thing, either it would be secured, and rightly, of disloyalty to the president or he would be secured with good reason for his conduct in his attitude toward the governor's renomination.

ELECTION IN MAINE.

Republicans Win, but Plurality Shows Falling Off. Portland, Me., Sept. 15.—Although the Republicans came off victorious in the state election, Bert M. Fernald of the party now in power, the first time in a presidential year for more than a quarter of a century.

The result was far from what a Republican loss of 4 per cent and a Democratic gain of 32 per cent. On this basis the Republican plurality in the state is estimated at about 8,000.

The vote was the heaviest since 1888, winning well up to 100,000. The gain, however, was mainly by the Democrats, the party now in power, who lost 10,000 over that of 1904, while the Republican vote fell about 2,500.

The two parties split even in the twenty cities which captured the vote. The voting was particularly heavy in the rural districts, where the Democrats made great gains.

EXPECT FIGHT IN ROCHESTER.

Unseating of McCarren Men May Bring War Today. CONVENTION BEGINS WORK. Opening Session Devoted to Temporary Organization, the Real Laborers of America Coming Tomorrow—Chancellor and Grand in Lead For Governmental Association—Brooklyn Senator's Men Barred Out by State Committee.

Rochester, N. Y., Sept. 15.—The Democratic state convention which opens today to nominate a candidate for governor and the six other state officers will continue itself today to temporary organization, listening to the speech of Judge Morgan J. O'Brien as temporary chairman and appointing of committees on organization, contested cases and procedure.

The indications are that the proceedings of the committee on contested cases will be characterized by turbulence and decided after a most exciting session to insist upon the seating of the entire fifty-four delegates representing those districts or to walk out of the convention in a body.

It is not at all certain, however, that any of the McCarren delegates will be thrown out or that any delegates not entitled to their seats may be permitted to remain there. Both Charles F. Murphy and State Chairman Conner Gohs of Monticello, who assumed leadership of the body of delegates from the county will be seated.

It is said that it is Murphy's intention to fight with the farmers program of Conner after the report of the committee on credentials has been received and that both he and Conner will ignore McCarren in the construction of the state ticket and the adoption of the platform.

LEADER'S VIEWS ON "SOCIETY."

Mrs. Astor Criticises Current Methods. BEST WOMEN UNKNOWN. They Do Not Get Their Names Into Newspapers, Declares Agnes Weston. Says Legislators Base Titles to Public Favor on Uncouth Manners and Lack of Refinement—'Young Set' All Right, She Asserts.

New York, Sept. 15.—"I hope my influence will be felt in one thing, and that is in discouraging the undignified methods employed by some New York women to attract a following. They have given entertainments that belonged under a circus tent rather than in a gentleman's house."

The interview with Mrs. Astor is published in the Pall Maller. Mrs. Astor is continuing the most striking utterance in an interview with Mrs. William Astor, who was for years the leader of New York society, the patron of elegance and of refinement in the social world in America.

Opening a New Coal Bin. American enterprise is now at work upon railroads to run into a section of British Columbia where a new coal bin has been discovered, comprising an area of 30,000 square miles. A Canadian geological expert says that 22,000,000,000 tons of fuel will be available by the time the roads are ready to transport it.

According to the London Mail, both labor and capital are idle in England to an extent which may well seem alarm. The most noticeable slump is in the shipbuilding trade, traceable, it is said, to "the abnormal cost of production and the shrinkage in freight."
