

PENNA. R. R. TIME TABLE.

Table with columns for destination (Philadelphia, Harrisburg, etc.) and time (1:25 a.m., 3:29 a.m., etc.).

LOCAL INTELLIGENCE.

Mifflin was a sea of mud last week. Tramps are in bad repute since the robbery. Tyrone claims to have fifty business houses. The Newton Hamilton river bridge costs \$18,574.

OUTRAGES are becoming so numerous "now-a-days" that men no longer feel secure or safe from the violence of their fellowmen when out at night or at home in their houses. There is a feeling now in the community something akin to that which prevailed when Lewis and Conley and their associates used to deprecate on people and their property along the Juniata and in the valleys that open from it.

LAST Tuesday night a week the Tailoring Emporium of Sheriff London and the Shoe Store of John North were entered by thieves, and clothing taken from the former and boots from the latter. The entrance to London's place was effected through a window opening on the Water street side of the building.

There are thirty men in Lycoming county who have expressed a desire for the office of Sheriff. There should be a good officer chosen out of that number. On Monday evening H. A. Stambaugh started to visit his brother, Jacob Stambaugh, who is lying quite ill in a town on the Pacific coast in Lower California.

THE Fulton wheat, which was first developed in Mifflin county a few years ago, has already extended itself into nearly every prominent agricultural district in the United States. A citizen of Turbett township sends us the following account of an experiment with the Fulton wheat in York State: In Yates county, N. Y., a careful experiment was made by a correspondent of the department with Fulton and Treadwell wheats, with reference to testing their respective merits. During the summer of 1872, an eight acre field of gravely loam, which had been cultivated the previous year in fodder-corn, was sown with the Fulton wheat. The field was manured in 1871 and 1872; in the latter year the manure plowed under at first plowing. Upon a plot of one-eighth of an acre of this ground, five bushels of Fulton were sown broadcast east Sept. 10, 1872. Treadwell was drilled upon the remaining part of the field, Sept. 18, at the rate of two bushels per acre. The former was harvested July 7, and yielded four and a quarter bushels, or thirty-fold upon its seed; the latter was harvested July 25, and yielded twenty bushels per acre, or ten-fold upon its seed.

PUBLIC SALE.—John Motzer, Administrator of the estate of Samuel Dunn, dec'd., will sell at public sale, on the premises, at 1 o'clock P. M., on Saturday, January 24th, 1874, a Lot of Ground situate in Mexico, having thereon erected a good two-story frame Dwelling House, Stable, and other necessary outbuildings and surrounded with a good fence. This property is in excellent condition and is pleasantly located.

DYSPEPSIA is a hydra-headed monster, from which nearly all the ills that human flesh is heir to originate. The Peruvian Syrup, a protected solution of the protoxide of Iron, is a long-tried and well-established remedy for this distressing complaint; it has cured thousands when other remedies have failed. NOTICE.—The Annual meeting of the Tuscumbra Savings Fund and Loan Association will be held Tuesday evening, January 20th, 1874, for the receipt of the annual report and the election of officers for the ensuing year.—A full attendance is requested. W. S. SNEIGH, Sec'y. Perryville, Dec. 30, 1873.

On the night of the 5th inst., two gentlemen named Phelps and Andrews, hailing from Brooklyn, New York, took passage in a sleeping car attached to the Pacific express train westward bound which leaves West Philadelphia depot at 11, 55 P. M., and on the night in question was conducted by Mr. T. Sprule Leisnering. In an adjoining berth two other men took passage with tickets for Pittsburgh, and it was observed that when the latter retired for the night they piled in to the berth with pedal disrobing, not even divesting their pedal extremities of their boots.

When the train reached Spruce Creek, yesterday morning the two gentlemen from Brooklyn awoke from their slumbers and a short time subsequent discovered that both their pocket books—the two containing the sum of about two hundred and fifty dollars—had been stolen some time during the night. They immediately notified the conductor of their loss, adding that it was their opinion that the theft had been committed somewhere between Lewis-town and Spruce Creek. The conductor proceeded without delay to interrogate the sleeping car conductor in the premises. The latter promptly stated that a berth adjoining the one which was occupied by the gentlemen from Brooklyn and occupied by two men who held tickets for Pittsburgh, was then vacant, and he supposed that they had left the train at Huntingdon.

Without delay the circumstances connected with the affair were telegraphed to Samuel A. Black, Esq., Superintendent of the Middle Division of the Pennsylvania Railroad Company, who detailed Depot Policeman Root to work up the affair. The two men suspected of committing the theft and who surreptitiously left the Pacific express train west upon its arrival at Huntingdon, boarded the Pacific express train east at that point yesterday morning and proceeded as far as Lewis-town.

These facts coming into possession of officer Root, he visited Lewis-town yesterday afternoon and soon after his arrival there succeeded in arresting the suspected parties, both of whom are very respectable looking, one of them in fact being a venerable looking man whose hair has been silvered with the frosts of old age. The first train eastward bound bore the officer and his prisoners to Harrisburg last evening, in which city the latter are now in custody awaiting identification.—Allona Tribune.

On Saturday night last some miscellaneous placed several pieces of metal and a number of cross-ties on the Pennsylvania railroad, between Creson and Gallatin, with the evident design of throwing the Fast Line east from the track. Fortunately the obstruction was placed in a straight line of track, and was observed by the engineer in time to check the train, when it was soon removed. No punishment could be too severe for fellows who would thus endanger the lives of many persons to grat a feeling of revenge for some fancied injury from the company or an employee.—Allona Tribune, Jan. 7th.
