LOCAL INTELLIGENCE.

The water is in the canal.
 Town lots for sale by the editor of this paper.
 People have quit talking about an early spring.
 Engineers are on the new railroad route to make the final survey.
 The rhythmic rhizoid published last week, finds its answer in Josiah's whale.
 There was an entertainment at Reed's School House, on Friday evening last, for the benefit of the school.
 When the roads get good and you need a new buggy, go to Showers & Scholl's place on Washington street.
 Mr. David Watts has caught the spirit of improvement and put down a substantial board walk.
 There was a common school entertainment at Happy Hollow school house last Friday evening.
 The Thompsons allow no abatement in the horse market. Last week they shipped another lot of tip-top horses east.
 Reed's Gray is troubled by hoarse throat. Six or eight places where loaves are cultivated have been visited by the thieves.
 Storms of thunder, lightning, rain and wind prevailed in Pennsylvania, Ohio, Indiana and Illinois last Wednesday.
 The Lewistown Gazette says an experiment of a big gun is to be made at the Logan steel works—a cannon 18 feet long, to weigh 40 tons.
 People who live along Tuscarora creek would like to have that stream stocked with black bass. Petition the fish commissioner.
 An entertainment will be given by the Thompson family schools, on Friday evening, March 27, 1874. The public are cordially invited to attend.
 Jacob Wall, Jr., and Erasmus Cameron went to the railroad, in a buggy last Sunday. They stopped the horse at the intersection of Railroad Avenue and Bridge street. Unexpectably a locomotive blew off steam. The horse frightened, turned round toward the bridge upsetting the buggy and throwing both the young men out. Mr. Will was not hurt, and clung to the lines and stopped the horse. Mr. Cameron, however, was quite severely hurt about the head and shoulders. He has been confined to his bed ever since.
 It is said by lighter men that temperance people are using money in the cause. The story may be set down as a fabrication—a freak of imagination, originated by too much drink. The SENTINEL certainly has not received any pecuniary benefit from temperance people. All that it has done in the temperance cause has been done gratuitously. The story of spirits must be received with heavy discount.
 The following is said to be a certain cure for the bite of a mad dog: "Mix one pound of common salt in a quart of water, and then bathe with, and squeeze the wound, the same one hour, then bind a little more salt on the wound for 12 hours." The author of this recipe was bitten six times by mad dogs, and always cured himself by the above mixture, and offered to suffer himself to be bitten by any mad dog in order to convince mankind that what he offered was a real truth, to which numbers could testify.

JOHN GARMAN closed his school in Beale township last Friday, and on that occasion was honored by a present of a handsome and valuable "mountain chain" quilt, by the young ladies of the neighborhood. Mr. Garman has been handsomely donated in Tuscarora. Even the forest paid tribute to him, for no later than last fall, while out in the wilds of the mountain side, a graceful deer stepped up and surrounded unobtrusively, and now a bevy of "deers" lay their tributes of respect at his feet. Garman may catch a deer in the wood, which speaks all very well for his wood-craft, but if he can catch the deer that planned the getting up of that quilt for him, he would do infinitely better. There is tact and judgment about that deer. Try it, John.

On last Monday a passing locomotive set fire to grass and stubble in a field belonging to a farm owned by G. W. Jacobs, Esq., of Perryville, and situated between the place just named and Patterson. A high wind prevailed at the time and drove the fire toward the railroad and the river. Jacobs, seeing the danger his property was in, hastened from town with assistance to save his buildings. The party immediately commenced to fight against the flames approaching by the high wind, and effectually succeeded in fighting fire with fire. The oppositely approaching flames met and subsided in their own track. The buildings were considered safe, out of danger, and congratulations were being exchanged over the rescue, when suddenly a whirl of wind caught up a whip of grass all aglow with fire, and carried it to the straw stack in front of the barn. Instantly it was afire, and it was only a moment until the flames were in the barn, when, fanned by the high wind, they soon consumed that structure. Loss \$1500 to \$1800.
 Just RECEIVED—A new lot of Superior and Susquehanna Cook Stoves, which will be sold cheap for cash.

HOW TO ORGANIZE A GRANGE.—So many inquiries are made in relation to the organization of subordinate Granges, how to take the initiatory steps and how to proceed thereafter, that the following is given for the information of all inquirers upon the subject:
 First Step.—Learn the address of the Deputy for your county, and send to him for a copy of the Constitution, which is furnished free. If you do not know the address of the Deputy, send either to the Secretary of the Master of the State Grange.
 Second Step.—Having read the Constitution carefully, if you are eligible to charter membership, send to the Deputy of your county for the "organization papers." They will be furnished without cost. If your county has no Deputy, send to the Secretary or Master of the State Grange.
 Third Step.—Having received the papers, read them carefully; and understand that none of the requirements laid down can be varied from. Also, particularly bear in mind that not less than nine men and four women are necessary to organization; but that it is better for the Grange to have the full number—20 men and 10 women. They secure the number required as soon as possible, taking care to receive the names of good men and women. With an organization numbering nearly two million of our best people, it will not do now to take any all who offer themselves for the sake of having a subordinate Grange organized two or three days sooner than it otherwise would be.
 Fourth Step.—Having obtained the necessary number, send the list on to the Deputy, stating the time you have agreed upon to meet and await his arrival; also, the best route for him to take to reach the place of meeting, if any from a railroad. If the Deputy, on account of previous engagements, cannot meet with you at the time fixed, it is his duty to so inform you at once, and to name a time that will best suit.
 Fifth Step.—While awaiting the arrival of the Deputy, a preliminary meeting might be had to fix upon time and place of regular meeting, and to agree upon a name for the Grange.—There should generally be a first and second choice of name, as the first choice may be the name of some Grange already organized. There should be no election of officers until after organization by the Deputy, for the reason that some of the so-called subordinate officers have very important duties to discharge, which are made known only after organization.
 Sixth Step.—Every person whose name is enrolled ought to be present at the time fixed for organization. If called upon, the Deputy can give nine of the leading objects of the organization as an introductory—(1) the social and educational; (2) benevolent; (3) economical; (4) friendly intercourse and discussion; (5) the cash system; (6) no operation; (7) unity; (8) anti-litigation; (9) anti monopoly, anti-extortion and anti corruption. [Deputies see page 4, FARMER'S FRIEND of Jan 24, 1874.] These can be condensed into four short paragraphs—1st, 2d, 8th and 9th, with a mere reference to the others.
 Seventh Step.—Organization; when all further information can be had from the Deputy, or through the regular channels, which are thrown open for the first time by this seventh step.
 Deputy for Dauphin, Perry, Snyder and Juniata counties, H. C. PEMMS, Harrisburg, Pa.
 Among the proceedings of the Lower House of the Legislature at Harrisburg, on the 18th we find the following tribute to the memory of Col. John M. Thompson by Hon. Jerome Hetrick, Mr. Hetrick said:
 Mr. SPEAKER: I desire the order of leg station be suspended for a moment to announce the death of Col. John M. Thompson, superintendent of the State arsenal, which took place in this city on Sunday last. He was one of my own immediate constituents, and I can speak advisedly of his worth as a citizen, and his record as a soldier is written in continuous acts of gallantry.—He entered the army as a sergeant September 3, 1861; was promoted to second lieutenant October 24, 1862; to first lieutenant November 19, 1862; to captain September 1, 1864, and was brevetted major and lieutenant colonel March 15, 1865, having been discharged by special order January 12, 1865.
 He was severely wounded at the battle of Winchester on the 19th of August, 1864, receiving some thirteen bullets in his body; that single battle resulted in his death, which he received, a severe cold having aggravated them afresh but a few days before his death. His remains were taken to his native county, accompanied by a delegation of his brethren of the Grand Army of the Republic, who performed the last sad offices of earth to their fallen comrade.
 He was a faithful and respected citizen, a public officer who discharged his whole duty, and a soldier who honored the army to which he belonged and the republic to which he gave his blood to maintain. Peace in his ashes.
 A LABORING man named John Messerman, residing in Decatur township, committed suicide on Monday night, by taking poison, dying in great agony. He was 50 years of age, and left a wife and children. The immediate cause of the rash act was domestic infelicity.—Corner Davis with a jury held an inquest over the body on Tuesday, and a verdict "poisoned by his own hands" was rendered.—Lewistown Democrat.
 The Central Pennsylvania Conference of the Methodist Episcopal Church is holding its annual meeting at Altoona.
 Philadelphia Cattle Market quotations on March 23d, were as follows: Sales of fair and choice at \$1 25, and common at \$1 00. Receipts 2800 head.

On Monday morning a week, as the funeral procession conveying the remains of Mr. Joseph L. Acker, dec'd, from the residence of Lewis Acker, of Howe twp., to a graveyard in Pottsville's Valley was starting, and while yet within a few rods of the house, the horses attached to Mr. Hunter's hearse became unmanageable, broke a single tree, and then backed on the other horses behind. The horse attached to the vehicle immediately behind the hearse, and in which the widow and children of the deceased were seated, got his head into the hearse and was fast, and in backing to get his head out of the wagon got against the horse belonging to Mr. Gibson Jones, which also backed and upset the buggy, throwing Mr. Jones and wife out on the frozen ground, into a fence corner. The escape was almost miraculous as nobody was seriously hurt. Mr. Jones was bruised a little on the arm and leg but his wife escaped unharmed. The buggy was strained considerably, yet nothing was broken. The horses were uninjured. After procuring a single tree and setting things to right, the procession started again and arrived at the destination without further difficulty.—Perry County Advocate.

Iron in the Blood

PERUVIAN IRON TONIC SYRUP
MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protozoid of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of red blood corpuscles, and cures "a thousand ills," simply by toning up, invigorating and vitalizing the system. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.
This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhea, Cholera, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from alcohol, it is especially beneficial to young children, and does not, in any way, interfere with their ordinary play and occupation, and building up an Iron Constitution.
 Thousands have been cured by the use of this remedy, from weakness, sickness, suffering creatures, of strong, healthy, and happy men and women, and invalids cannot reasonably hesitate to give it a trial.
 See that each bottle has PERUVIAN SYRUP blown in the glass.

 AT
LOCUST GROVE, MILFORD TWP.,
 One and a half miles south-west of Patterson.
 THE subscriber would most respectfully inform the public that he has just opened a Store at the above place, where he is prepared to supply all who may favor him with their patronage with the latest and most select assortment of DRY GOODS, GROCERIES, QUEENSWARE, WOOD AND WILLOW WARE, OIL CLOTHS, BOOTS & SHOES. Also, with a full supply of **HOME-MADE GOODS, YARNS, & C.** All of which he offers to sell or exchange for country produce at **THE VERY LOWEST PRICES.** Much lower, in fact, than goods have been sold within the county for many years. He will pay the highest market price for Locust Posts, Railroad Ties and Wood, either in cash or goods.
