Walter Savage Landor.

There is one subject upon which those who think that what I have to say on it is of the nature of speaking ill of a friend, will consider that it were better to be silent. I have thought with them, and should abstain from touching the matter I allude to, if I agreed with them in the first proposition. But differing from them on that point, I am absolutely true to my honest profession of opinion, to allow such profusion to have and to exercise all such authority and influence as it may be capable of exercising, and as I have unconsciously professed, it would have wished it to have, I do not hesitate to say that Landor was no believer in any of the creeds which are founded on the belief in a future life.
