Miscellaneous.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitatizing Agent, Iron in the blood, and Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed woon.
