

AGRICULTURAL. QUIETNESS IN MILKING.—The cow is naturally sluggish in her movements, and should not be hurried into the milking shed. She should never be driven to the place of milking faster than a walk, and if she has far to go, the walk should be a slow one.

SCIENTIFIC. THE ARTIFICIAL PRODUCTION OF LOW TEMPERATURES.—By the Wisconsin process, a steam engine is employed to condense air, say, two or three atmospheres. The heat developed by the compression is drawn off during the passage of the air through a series of pipes in a series of chambers, in which cold water is flowing.

DOMESTIC. HIS DAY IS.—"Once in a while," says the Danbury News, "there is a day when a man is out of work, and he stays at home. After breakfast is eaten and the dishes are removed, he pulls out the family drawer, and dumps the contents on the table, to look for a paper of suddenly acquired importance.

MISCELLANY. "Who hurt you, huh?" asked a pedestrian of a small boy who sat hawking on the curb-stone. "Johnny Kydd, sobbed the victim. 'I'll see about him if he does it again,' remarked the man condescendingly, but the boy suddenly stopped hawking, and exclaimed: 'I'll leave him alone. When I grow up I'll get on the police force, and then I can belt him all I want to.'

ADVERTISEMENTS. ENGINE SCHEMERS' CELEBRATED OF PERUVIAN BARK. The Recipe for this Bitter was found among the papers of a Swedish physician, a friend of mine, who lived in Sweden, and who died of a Fall of the Barrels.

AGRICULTURAL. CONTROLLING NITROGEN.—When one understands the elements of plant nutrition, and knows how to control it, it is surprising how great are the results of force or garden art. In grape culture, for instance, in England, it is essential to grow the foreign grape under glass, but of course, a great amount of direct personal attention has to be brought to bear in order to make it succeed.

SCIENTIFIC. LIGNIC CARBONIC ACID.—Callicell has, by use of an apparatus very similar in principle and construction to that devised by Professor Anderson, of Belfast, succeeded in making a cool liquid, under conditions which enable him to test many of its properties, while still in the liquid state.

DOMESTIC. A BOSTON BRIDE RECEIVED.—A Boston bride received among other presents a handsome and elegant carriage, which she had ordered from a certain firm in New Orleans, directed to "the big-footed man in New Orleans."

MISCELLANY. AN INFALLIBLE PILE REMEDY.—Sufferers with this painful disease, who have tried electrolysis, lotions, ointments, and various other remedies, in vain, will find your health restored, your mind restored, and be once more a man in the best sense.

AGRICULTURAL. GRASSING A SLOPE.—A steep slope may be grassed over without sodding by first smoothing the surface, and then mixing a tough mortar of clay, loam, and horse manure, with sufficient water. The grass seed, which should be a mixture of Kentucky blue grass and white clover, should be thickly but evenly scattered upon the most exposed part of this plaster, as it is spread upon the bank. The plaster should be at least one or two inches thick, and a thin layer of soil should be sown over it.

SCIENTIFIC. CHEMISTRY IN HOUSEHOLD COPPER.—A preliminary examination of copper or admixture is best made by gently stirring the powder upon the surface of coffee paper. The oil contained in coffee prevents the particles from being readily washed away by the water, and especially so when the water is heated.

DOMESTIC. A WESTERN PAPER SAYS.—A western paper says of its air, in its relation to the willow, it is kind and pleasant, and it will not hurt him. Poor Debban says that description suits his wife exactly!

MISCELLANY. "DON'T WORRY YOURSELF ABOUT MY GOING AWAY MY DARLING, ABSENCE, YOU KNOW, MAKES THE HEART GROW FONDER." "Oh somebody else," added the darling.
