year's growth, cut it all away. The top winter it will be feeble and sickly the old surface, and then apply varnish renext summer, and linger along year duced with turpentine to the consistency after year until the planter condemns of cream. Use an elastic bristle brush. the variety and throws them away in disgust. Last spring I filled an order rubbing with pomice stone, when dry, for raspberries, and before sending them and varnish it again. I cut the tops back to two feet, and came near having them returned for doing so. I told the dealer that they should be all cut off when planted out. He said he knew that very well, but his

A CORRESPONDENT of a Germantown paper writes: "On dry or wet ground the roller is found to be salutary. Plowed and prepared for sowing, dry land is much helped by the roller. The blades Colonel Haig, R. E., chief engineer of of grass spring up sooner and retain a firmer hold in the earth. In a season results were: With tide 25.08 miles of drought, rolling has saved the crop, when without it the seed would have never sprung from the ground. In wet and heavy ground it is believed that the roller, smoothing and hardening the surface, will leave the soil immediately lo beneath the surface in a better condition to generate the seed. On grass when it is considered that they are ground that has been heaved by the attained by a boat only 87 feet long frost the roller has an excellent effect in they become absolutely wonderful. fixing the roots. Rolling the ground is The value of swift steam launches as also good when the land has been laid down unevenly the previous year. If the land is too dry, wait till just after a soaking rain and it will work cantially. It is a good idea to roll plowed sowed torpedo launches can be built to s cam ground before harrowing, as it presses at the rate of 16 or 18 miles per hour in lown the furrows that would turn back, a moderately calm sea, the whole face and makes the surface less uneven, and of naval warfare may find itself changed the harrow pulverizes it much. We in a very unexpected way. find that on an average not one farmer in four has a roller.

NEW METHOD OF GRAFTING THE VINE. -Mr. Johnson, a British cultivator of the vine, has come to the conclusion, after trying all other methods known, that there is no better method for grafting vines than the one he very property calls dove-tail grafting. It is very first day of the year, and reaches a simple and sure, the scions producing height of over three feet, blooms on the third day, remains open twenty-four the third day, remains open twenty-four ing vines than the one he very properly shoots forth from the frozen soil the have kept their birds on seed and water old, and the scion inserted opposite a bud or spur. Having selected the stock, the wood should be cut out about two inches in length, to a depth equal to the thickness of the scion, in the same manner dove tailing is done by cabinetmakers. The scion is then divided in the middle, and fitted neatly into the stock with the bud midway from either end and then firmly tied with matting and clayed over, as in other methods of grafting, leaving a small hole for the growth of the bud. Damp moss is tied over the whole, and after the bud starts, the shoot opposite it shortened in and entirely removed. The grafting should be done before the sap is in motion.

IMPROVING WHEAT SEED, -A writer says: It has been my practice for the last sixteen or eighteen years to run my wheat field for seed over a very coarse seed screen, so as to sow none but the very largest kernels. By so doing I have improved my wheat so that I have sold nearly all my wheat at home for seed. But in 1872 I hit upon a new plan. I had a piece of Treadwell wheat that was injured by insects in the previous fall and killed by freezing in the winter, so that there were spots not wood cases. A naturalist in Madeira, worth cutting. After harvest I obsize. It occurred to me that there was wheat that had withstood the ravages of the insects and the rigor of the winter. Were found drenched with the turpen I gathered enough to sow one rod tiny resin exhaling from the wood. square, from which I realize twenty Shells covered with a rough epidermis pounds of wheat, of unusually large, over fifty bushels per acre; last harvest had twenty bushels which weighed sixty semi-fossils full of sand had escaped; six pounds per bushel. It is my opinion all others, whether recent or semi-fossil,

CHEAP LABOR IN GARDENING,-W make a seasonable suggestion to young gardeners on the best mode of keeping clean grounds, and raising good crops at a little cost. Novices commonly allow weeds to get several inches high before they think of clearing them out before they think of clearing them out and destroying them. Now, the great be continued, and they retired quietly secret of cheap and successful culture is to kill all weeds before they come up. Go over the bare surface of earth as often as once a week, and pulverize it ter, and of the sexton who discovered the first the sexton who discovered thoroughly with a rake or skim-hoe. the fire, the consequences might have This will kill every weed just as it is been terribly fatal. Such self-command starting, with less than one tenth th abor required to kill them when severa inches high. Do it often, and thor-

stand, he put about a dessert-spoonful on the bud of each plant. Immediately after the first shower it showed a rich glowing color, which it held until maturity, notwithstanding a prolonged drought ensued. Before topping, however, he had as much more applied to each plant-in all about one hundred pounds per acre. The land upon which nerve and the brain, M. Dauer round this experiment was made was high, them to consist of globules of 1-2800 to dry, and exhausted years ago. The by a transparent viscid and coagulable ds per acre. Pierce's Piensant Purgative Pellets.
In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress. Age does not impair them; their sagar-coating and being enclosed in glass bottles preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a Laxative, Alterative or Purgative is indicated, these little tive or Purgative is indicated, these little Pollets will give the most perfect eathsfaction to all who use them.

Do not allow any druggist to induce you to take anything else that he may say is just as good as my Policts because he makes a large profit on that which he recommends. If you druggist cannot supply them, enclose 25 cert. R. V. PIERCE, M. D., Prop'r. SHOW CASES! SHOW CASES!

EUREKA VINECAR BITTERS

Dr. J. Walker's California Vin egar Bitters are a purely Vegetable preparation, made chiefly from the na-tive herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BIT-TERS!" Our answer is, that they remov the cause of disease, and the patient reovers his health. They are the great lood purifier and a life-giving principle a perfect Renovator and Invigorator of the system. Never before it the history of the world has a medicine been compounded possessing the remarkable qual ses of Vinegas Butters in healing the sic 'f every disease man is heir to. They are I gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Billous

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Altera

tive, and Anti-Bilions. Grateful Thousands proclaim VIN EGAR BITTERS the most wonderful Invigorant that ever sustained the sinking

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital argans wasted beyond

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Antumn, and remarkably so during sea- he, de. Of great benefit the Swedish Bitters hu sons of unusual heat and dryness, are also been found in the beginning of Gastrie and lainvariably accompanied by extensive de-rangements of the stomach and liver, But this is only one side of its inestimable powered and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various or-gans, is essentially necessary. There is no cathartic for the purpose equal to reliable DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver,

and generally restoring the healthy functions of the digestive organs. Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Head-ache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste Dyserery, and Cholers, were most apparently Linners. Pain in the region of the Kid- spective troops, succeeded in reducing the more

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. eases, WALKER'S VINEGAR BITTERS have

shown their great curative powers in the most obstinate and intractable cases. For Inflammatory and Chronic Rheumatism, Gont, Billious, Remitcent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases, -Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-bearers, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALLER'S VIN-

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms. lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no verminges, no an thelminities will free the system from worm

For Female Complaints, in young or old, married or single, at the dawn of wo-manhood, or the turn of life, these Tonic Bitters display so decided ar influence that

Cleanse the Vitiated Blood whenever you find its impurities tursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

CELEBRA YED SWEDISH BITTERS.

OF PERUVIAN ARK The Recipe for this Bitters was found among the papers of a Sweedish physician, a stagle man, who lost his life, when 106 years old, by a fall of his horse. Said recipe then had been kept a professed secret by his family for more than three centuries. During all this time they made frequent use of the Bitters, which rendered them a strong and long living set of people, enjoying ext clear health.
Originally the secret of preparing th s afters and its wonderful effects, was obtained y a sof their

HOW IT OPERATES.

The effect of the Swedish Bitters directs itself, to the first place, to the nerves of the digestive organs throughout their entire extent, but mainly to the stomach and the viscoral tract. It normalisesther functions, and therefore, according to the nature of existing irregularities or removes obstructions and retentions of all kind, or stope Diarrhose, 3 -tery, or other anamolous discharges and effects, By regulating the abdominal organs, of which dopend the nourishment, the conserve tion and the development of the human body—the Swedish Bittere invigorates the zerves and the vital powers, sharpens the senses and the intellest, removes the trembling of the limbs the acidly, the burning nauses, and pains of the stomach, improves its digestive faculties, and is an excellent Prophylastic and Remedy against servous Irritability, Flats-leacy, Cholle, Worms, Dropsy, &s. If taken in double doesa, it operates as a sure sperient, but in

a mild and paraloss way

In consequence of these qualities of the Swelish Bitters it has become one of the most celebrated remedies against diseases of the organs contained kind in consequence of said discuses. Thus the five-disk Bitters has an ansurpassed ren wa for earing Liver Complaints of long standing, Janudies Dyspepsia, Disorders of the Spices, of the "ancreas, of the Mesarate Glands, and also disorder of the K'dneys, of the Urinary and Sexual-Organs. Besides these the Swedish Bitters euros those in-Diseases, which originate from said abdoming disturbanens, as :-- Congestion of the Lungs, the Beart, and the Brains, Coughs, Asthma Headache Neuralgias, in differ at parts of the body. DIRECTIONS

89. All persons who have to perform long and hard labor, and while doing it, are often exposed to sudden changes of temperature, or the draft or air, or obnoxious dusts, smalls, or vapors, should not it, added to their drink, are enficient to preserve them in inestimable health and vigor. Those who are accustomed to drink ine water during the enmmer, should never smit to add some Ewidish Bit-

De Persons given to sedentary life should no the Swellah Bitters. A will seatralise the bed of fects of their want of xercise in open air, and keep

them in good health and good spirits. SF To the Ladies the Swedish Bitters wast especially be recommended. Because its use on tributes most essentially to preserve the regularity of the physiological functions, peculiar to the dellcate female constitution and thus proves an effeetnal barrier against those tonsmerable Nervons so frequent, as to be taken by many for Eve's as

29. But the Swedish Bittere does not aniv sectir good health, it also effects the full development of the female body, and of its beauty by perfect forms and fine complection and color. Thus the Swedish Bitters has be afest and most effeient

COSMETIC AND TOILET ABTICLES.

AF Farmers and their Families, who have tried Swedish Bitters, prefer it to all similar articles For them it proves beneficial in various ways. In Summer, when their calling requires them ! often endure the intense heat of the enn, while per porming hard work, they are induced to be sot sufficiently cautions in satisfying their burning thirst by water, or in eating fruit not yet ripe, &s Thus farming people are very liable to suffer from ann stroke, Fever, Dysentery, Cholers, &c., &c. The regular use of the Swedish Bitters makes these

dangerous influences all harmiess. In Winter, during the time of rest, many sountry people, trying to indemnify themselves for past privations, are very apt to often everload their the r ofs of the tree. The use of the Swedish Bit-ers provente diseases from that cause.

As a matter of source, in case of sickness, th patient should avoid food not agreeing with him or such, as is known, to be difficult to digest or un, The rain: " Be moderate in all you eat, drin

er do," is strictly to be observed. HOW TO TAKE SWEDISH RITTERS The fiwedish Bitters shall only be taken in

Grown persons take one tablespoonful thre der day, before or after meals, pure or diluted with

abernos of inflammatory symptoms.

Persons under 20 years, two-thirds of that quantity
