FARMERS' CHILDREN. - Every girl and FARMERS' CHILDREN. --Every girl and boy should have the care of something belonging to them, to grow, or culti-vate, or improve. When there is plenty of room, as on a farm, boys should own a horse, or a cow, or have a given por-tion of the garden to cultivate. Girls should be allowed to possess a bee-hive, or a certain number of heus, or fruit or a certain number of hens, or fruit bearing vines.—Something of value, month. bearing vines.—Something of value, that by care and cultivation increases and returns a value for itself. Children will acquire an interest and derive a happiness from this form of industry that will repay the effort and trial. A Finm post as high as the horse's head is the safest thing to hitch to.

CASH THROUGHOUT.

Bring Money for Clothing, and we will supply it at prices possible under no other plan.

21 FOINT. The fairness of this feature of our plan all will praise. It is simply treating all alike exacting nothing from indisposition to bargain or ignorance, and, at the same time, conceding all that shrewdness on the shrewdest customer's part could possibly extort, because the "One Price" which we mark on our goods, shall invariably be 2d POINT. PRICE."

NOT the "First" Price, but the LAST and LOWEST PRICE. NOT the "TOP" Price, but the VERY BOTTOM PRICE.

In other words, Salesmen or "Headmen," have never been allowed, under ordinary circum-stances, to fall below a certain figure! It is at that, or at a lower figure that we now determine to mark our goods, calculating the cost to the exact penny, and fixing the price at the low minimum profit on which business on a large scale can be conducted. We know that the larger business we sim for and anticipate, will require a large increase in the number of customers, and we shall therefore see to it that the "One Price" is based on the Smallest Profit, calculated to the exact and lowest penny, which will not be difficult to do with universal Cash Payment for the rule. The price will be marked in plain figures and no alteration allowed.

NOTE .- Whenever the exigencies of the season, the state of trade, or the money market may demand, the right is reserved to go threach our stock before or after business hours and mark down any lot or lots of goods, changing the figures on all the inbels, so that the new rates are the same to all, and all buy alike at the mark down prices.

IT MAKES CLOTHING CHEAP Sinking the prices several degrees below what they have been heretofore, or could possibly be under the old system. By dispensing with certain clarks no longer needed, it reduces "Store Expenses. By enforcing CASH Payments, the bad debts are avoided. By putting plenty of ready money in hand, it enables us to buy goods at figures that credit men know nothing about. By increase of sales, a smaller profit on each article is sufficient. All of these "By-Wikys" lead direct to CHEAPNESS, and this without lowering the quality or style of our Celebr SOME OTHER THINGS Wherein our plan differs from others:

(a) It combines all the good points which exist, seperately, or in partial combinations, and it adds some new and important features.
(b) It gives such a guarantee as no house in the world, to our knowledge, ever ventured to give as a rule.
(c) It makes our goods equivalent to checks on a bank, whenever they are presented unsern or uninjured.
(d) It has the greatest advantage of an immense business already established, to sustain the "New Constitution," and under no other direct stances could so many radical concessions to customers be made.
