Por restoring to Gray Hair its natural Vitality and Color.

color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often. though not always, cured by its

use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorities. Its occasional use will present the hair from turning gray or falling off. and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some prepara tious dangerous, and iffinious to the not harm it. If wanted merely los a HAIR DRESSING, nothing else an be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glessy lustre, and a grateful perfunct.
