Governor Hartranft's Message. Governor Hartranft's message was received at a time too near publication hour to admit of an extended review in this issue.

The Finances of the Common wealth is the first subject considered by His Excellency. "During the past eleven years the annual reduc tion of the State debt averaged nearly a million and a half dollars. By the present distribution of the revedollars remain in the Treasury each year, in the Sinking Fund. The natural increase of the tax or revenues with the lessening of the State in debtedness will yearly increase this balance. By applying this surplus the present process by which pardons retary Chandler could be engaged in to the extinguishment of the State debt, the Commonwealth can be cleared of debt in about ten years. Constitution-among its other absur-Constitution-among its other absur-Secretary of the Interior, seeding him The new Constitution, however, has increased the State expenses in the annual requirement of five hundred thousan I dollars for Common School purposes, and necessary requirements, in Juliciary, Legislature and chains of deserving public charities. Secretary of Internal Affairs (both and forbids this larger reduction, as the revenues are now distributed .-By another calculation it appears that by taking one-third of the corporation tax, which the Legislature assigned to the Sinking Fund, and dedicating this one-third to the uses of the general fund, the whole in debtedness can still be liquidated in fifteen years. Without additional taxation, a fund may thus be created. that, with the other revenues of the general fund, will, with prudent management, possibly be sufficient to meet all the necessary and proper expenses of the government, and I recommend that this change be made. Education .- The prosperous condition of the public schools afford abundant occasion for just pride.
