daughters of men-gifted with thoughts which wander through eternity, and with powers which have the godlike privilege of working good and giving happiness—which have the godlike rer of fame. The fact is, that to do privilege of working good and giving in anything in this world worth doing, we anything in this world worth doing, we thousands of these thoughts drop to the ground and rot 7 who does not con-tinually leave his powers to draggle in the mould of their own leaves 7 The heights of greatness and glory to which mankind would be raised, if all their thoughts and energies were to be ani-mated with a living purpose. But, as in a forest of oaks arms the millions thoughts and energies were to be ani-mated with a living purpose. But, as in a forest of oaks, among the millions of acorns that fall every autumn, there of acorns that fail every autumn, there may, perhaps, be one in a million that will grow on into a tree—somewhat in like manner fares it with the thoughts and feelings of man. What, then, must be our confusion when we see all these wasted thoughts and feelings rise up in judgment and bear witness against

Corporal Punishment in the Schools.

Within a few years some of our communities have forbidden all resort to corporal punishment for refractory pucorporal punishment for refractory pu-pils. It is denounced as barbarous and degrading An indiscreet administra-tion of it arouses an excitement as in-away! And could we be sure of ninety tion of it arouses an excitement as in-discret as the original sin. Instead of removing the one offender, we remove from all hands the weapon with which he has offended. It is always so much tion of it arouses an excitement as in-

defect of home training, to school-to the ordinary motives of the school-room. We give the little victims over, un-helped and hardened, to the cruel indul-gence, to the fatal unwisdom of their untaught, uncapable guardians. To to turn them upon the street, is to let them loose into a life of idleness and lawlessness. It is unjust to the parents, as well as ruinons to the child. The taxes which support the school and they have a right to all the benefit which the chool is canable of bestowing. When lawlessness. It is unjust to the parents, as well as ruinous to the child. The former have paid their share of the taxes which support the school and they have a right to all the benefit which the school is capable of bestowing. When they send their children to school, the school ought to teach and govern them, not send them home again. This is just what the naughty boys want. In very many cases the rod would not need to be used. If the boy knows that by plaving all day perhaps far into the night: he

many cases the rod would not need to be used. If the boy knows that by playing tricks, or by prolonged idleness, or con-tumacy, or rebellion, he will be only sent adrift, he will play the tricks and wrench himself free from restraint. The sweeping away of corporal punishment from schools is the flowering of that are of weakness which springe to the tare of weakness which wrence minsen nee from restraint. The making. Let nome be another atmos-sweeping away of corporal punishment from schools is the flowering of that is no other place in the world where he is no other place in the world where he can find peace and quiet, and perfect love. A MALK egg, one that will natch out a rooster, has on its pointed end, small folds and wrinkles, while a female egg has no wrinkles and is perfectly smooth at both ends and well rounded.

portion to their posteriors. The head and eye of the female are really at-tractive; the expression is exceedingly member and intelligent: the large luss

about be taught to face the pain and tractive; the expression is exceedingly gente and intelligent; the large, in the small, well-formed head, apparently glean with benignity and satisfaction when she is perched has an opportunity to quiefly fan herself."
 Squandering Priceless uiffs.
 Among the numberless marvels, few are more arrow too, sather her excelessness with which priceless giffs, intellectual and nota five many too solution in the prodigality instances do not marvelones than the prodigality in herse for the want of a little courage. Every agains to the want of a little courage. Every interest to all to the grave a number of poiscurity because their timidity there wonly remained any the want of a little courage. Every index on the animal too for the sumber of the want of a little courage. Every have and then fail to the grave and which wander through the ends to the want of the light of the sum for a little courage. Every have and then fail to the grave and which wander through the ends to the want of a little courage. Every have and then fail to the grave and ther fail to the grave and then fail to the grave and the fail to the grave and then f

calculating tasks, and adjusting nice charces; it did very well before the flood, where a man could consult his friends upon an intended publication for their decisions. To ascruttain if a plant wants fresh for a hundred and fitty vears; and then attached to it, and example the roots. If they are matted at present, a man waits and doubts and hesitates and consults his brother; and his suncle, and his particular friends, till one fine day he finds that he is sitty years of age; that he has ho more time to follow their advice.
 Something to set us Thinking.
 Ninety years hence not a single man or woman, now twenty years of age is that there or four for a large plant. If the top of a large pot, and a sample or woman, now twenty years of age is that for the hold be about the solution for drainage.
 Ninety years shall have rolled away? And early worthy years shall have rolled away? And early years shorten as man, and want at first, that are the bound for a large plant. If the top of a large pot, and a sample or woman, now twenty years should have rolled away? And early worth, that are the bound two matted but the plant if in the plant if in early plant if in a larger pot, and a sample wat? And could we be sure of inney years should have rolled away? And early would, that are mong of the wing of the wing and there should be left for the passeth on the wing; of the wing and there should always and is foryrotten. Years shoure as in age there wing the passet on the wing; of the wing of the wing and wances in age. Like the degrees in advances in age. That for a middle bleft for the post of the wing and there should be left for the precipition of a large pot, and a sample away? And early wound, that passet on the wing; of the max and maxy and is foryrotten. Years shoure as many and is foryrotten. Years shoure as many indicating the passet on the wing; of the wing of t

discreet as the original sin. Instead of promoting the one offender, we remove the passeth on the wings of the wind away and is forcyclen. Yearshorten as man dvances in age. Like the degrees in longitude, mar's life declines as it to generalize than to discretization and our ever. Is it possible that life is of so ther class of animals will. They give share the best of farm set to the farm more in proportion to the continuing do not abolished with the govern in their state? Will align the golden names over the best of farm state to the farm more in proportion to the solution. But the power to use it should vest in the teacher, and is a prevail private the solution. But the power to use in the state of mining, do not respond to the ordinary motives of the school.

mutton. They multiply with great rapidity. They are the best of farm scavengers, "cleaning a field" as no other class of aminals will. They give
