SENTINEL & REPUBLICAN MIFFLINTOWN. Wednesday, January 19, 1876. B. F. SCHWEIER. LOPOR AND PROPRIETOR

OBITUABY.

JOHN SCHWEIER Died at Lo'clock P. M., January 15 1876, aged 70 years, less 1 month. He was a great grandson of Nick laus Schweyer, who came to America in the year 1752, and settled in Maxa tonny township, Berks county, Pa. A son of Nicklaus-named George Schweyer, settled further up in the same county, in Windsor township, ad joining the town of Hamburg. He was the grandfather of the subject of the obituary notice. By one of the finangial revolutions so peculiar to American tife almost the entire estate of hi grandfather, George, was swept away. This stroke of misfortune left the father-also named George-of the subject of this brief notice without means.

When the war of 1812, between th United States and Great Britain, broke out, George Schweyer, last menvioned. yielded to the military spirit of the times and entered the U.S. Army He never returned. His mother, re ceiving word that he lay wounded at one of the frontier posts, along the Canada line, and yet having a pittane of the old fortune left, journeyed t the post designated, only to meet dis appointment in not finding ber son. George Schweyer's wife having died previous to his going into the army his four children were left without parental support, excepting what they received from their graudmother. She also soo sickened and passed away, and then the four children, two boys, John and George, and two girls, Susan and Sophia, drifted out into the wide world without means or friends.

John Schweier-that is the way misspelled his name-came to Juniate county in the year 1820, where he lived from that date to the date of his death excepting a brief sojourn in the State of Maryland, and in Cumberland county, this State. He learned the trade of painting, and about the year 1831 settled in Miffintown, where he added to that of painting, that of making chairs and cabinet furniture. After a number of years he engaged largely in the manufacture of furniture, and annually shipped boat loads of furni ture to various points along the canals of the Juniata and Susquebanna rivers About twenty years since, on account of declining health, he withdrew from the business, to a farm adjoining Mif fintown, where he lived in quietness to the day of his death.

He was born in Windsor township. Berks county, Pa., on the 14th day of

The Loval Awakening. Under the above heading the Washington Republic says : Like the defunct Confederacy, the Democratic party has several times come within sight of the White House, but as often fatled in its capture. It is now entrenched in the House of Representatives, and has put ex rebel officers in command of its unportant offices, but we confidently predict that the Centennial campaign will close with the utter rout of the Democratic party, and the repossession by the Republican party of every important position formerly held by them. The Government was saved by the sacrifices of its loval sons, and its friends have not yet concluded to surrender it to those who bitherto favored its destruction. If Democracy has gained certain advantages over the Republican party the gain was due, not to an increase of strength on their part, but to the spathy of Republicans who deemed their party sufficiently strong not to require from them that personal attention which they had formerly given to political affairs. This error has brought in its results a lesson that will not soon be forgotten. The last election indicated the awakening of the loyal masses. The Presidential election will indicate that they are not only awake, but on their feet to hold and defend the Government which belongs to them by right of services rendered when its existence was in jeopardy.
