 at the subject in just this light and no incluster supermethy increases. As an other supermethy increases, and a link perform in the supermethy increases, and a link perform supermethy increases, and bound in the supermethy increases, and a link perform supermethy increases, and bound in the supermethy increases, and a link perform supermethy increases, and a link performs supermethy increases, and there structs and the supermethy increases, and there supermethy increases, and there superform in the section of the supermethy increases, the maximu to do far more good, by the vast quan-tity of grubs and insects he devours, than the little harm he does in a few grains of corn he pulls up. He is one of the farmer's best friends.

A FARMER states that he planted five rows of corn with seed taken from the three inches below the top of the ear, rejecting the imperfect grains at the extreme point; then five rows taken from the middle and base of the ear, reject-ing the imperfect grains at the butt. The result was that the five rows planted from the middle and butt of the ear ripened about two and a half weeks before the other rows, the corn of the former being better eared and filled to the end of the coh.

To KEEP the roots from rambling we lift, and if necessary shorten a few times while the trees are young, thus bringing them into the habit of forming carried off

bringing them into the habit of forming fibry roots near home; while to prevent them entering cold, unsuitable soil we find there is nothing so effectual as keep-ing the surface soll in a suitable state as regards moisture and richness, and, of course, not digging and cropping it. Ix regard to milking cows oftener Is regard to milking cows oftener

Is regard to milking cows oftener than twice a day, as a general rule it seems unnecessary, but there are cows in nearly every dairy that suffer ex-treme pain if allowed to go twelve hours between milkings, as their an-xions watching for the milkmen and their bellowings and moanings indi-cate. Frw persons practice pruning cucum-ber, melon, and other similar kinds of

Fix persons practice pruning cucum-ber, melon, and other similar kinds of vines; still, it is just as beneficial, if properly done, as the annual pruning of the grape and other woody plants. The pruning should be confined, how-ever, to the pinching off the ends of shoots only.

A FRENCH chemist asserts that salt alone answers all purposes for packing pork, provided all animal heat has left it before salting. No saltpetre should be used, as it induces scurvy. The brine should be as strong as possible, and cold water is capable of dissolving more salt than hot water. AN INEBRIATE recently fell and struck his nose against a barber's pole. On being raised from the ground, he asked: "What's zat woman wi's triped stock-ings on got agin me?" "CEMETERY" is the name of a new station on the Stoney Creek railroad. All "dead-heads" are expected to get

A HINT FOR SUMMER .- A light thread net suspended before an open window will effectually keep out the house fly. It is a singular fact that these trouble-

Ammonia and Nitric Acid in River Water.-M. Boussingault, on the occa-sion of the recent freshet in the Seine, made some curious researches of a quantitative character in regard to the nitrogenous compounds m river water. Undoubtedly the bulk of such nitroge-nous substances was derived from the destruction and solution of some of the buildings, and the wash from the cul-tivated fields through which the river ran. On the day of the greatest rise in the Seine M. Bouissingault calculated that each cubic metre of water held in solution 33 centigrammes of ammonia, some insects will not pass through the meshes of the net, even though these meshes are more than an inch in di-GELATINE ICING FOR CAKE .- One scant

tablespoonful of gelatine, dissolved in two teaspoonfuls of hot water; mix with powdered sugar till quite stiff; spread on the cake and smooth with a knife dipped in hot water. I have tried it and find it does not crack after becoming iry.

was made the calculation showed that 143,510,400 cubic metres of water passed under a bridge in Paris in the twenty-four hours. This would show that in a single day the quite large amount of 47,538 kilogrammes of ammonia and 182,212 kilogrammes of nitric acid were neuroid off

ENGLISH MUYPINS.—Make a sponge over night as for bread, using nothing but yeast, flour, a little salt, and tepid water. In the morning beat it up well and pour into muffin rings upon the griddle. The batter should be just stiff enough to drop (not run) from a spoon.

borax in water, and use for water to shave, when it will be found to make the soap more pleasant, and the opera-tion of shaving much easier. Dox'r turn up your nose at light things, Think of bread and taxation. "LET no single man escape," is the leap year motto of the ladie

To HAVE CORNED BEEF JUICY .- After it is cold, and not dry as a chip, put it into bolling water when it is put on to cook, and do not take it out of the pot, when done, until cold.

It is said that eggs may be preserved for six months by dipping them in lin-seed oil, and so placing them in a layer of sand that they do not touch.

Cookies.-Four eggs, two cups of sugar, one cup of butter, and flour enough to roll them; roll them thin, and bake in hot oven.

such a volley on the most heavily armored broadside vessel, — how it would make her reel and groan like a great beast struck at the heart! Think of the thunder that such a weight would cause, and the terror it would

carry to an enemy! And some of the British turret-ships, like the Glatton and the Thunderer, even carry guns which throw shots weighing six hundred pound each!

tivity of the system, we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very ef-fectual. A few doses will create an ap-petite and give fresh vigor to the enerpetite and give fresh vigor to the ener-vated body. For dyspepsia, it is inval-uable. Many eminept physicians have doubted whether dyspepsia can be per-manently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is to-tally different from such drugs. It con-tains no corrosive minerals or acids; in fact it assists the regular operations of fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resem-bles the gastric julce that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body

healthy condition of the body, causes the food to be digested; and when this juice is not excreted in sufficient quantitles, indigestion, with all its distress-ing symptoms, follows. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. Schenck's Sea Weed Tonic sold by all Druggists.

Iron in the Blood. The PERUVIAN SYRUP vitalizes and

The Frintvian STRUP vitalizes and enriches the blood, tones up the system, builds up the broken-down, cures Dys-pepsia, Debility, Dropsy, Chills and Fevers, Chronic Diarrhoza, Nervous Affections, Boils, Humors, Diabetes, &c. Thousands have been changed by the use of this remedy from weak, sinkly any structure of the second secon sickly, suffering creatures, to strong, healthy and happy men and women; and invalids cannot reasonably hesitate

and invalids cannot reasonably hesitate to give it a trial. A 32-page pamphlet, containing a history of the PERUVIAN SYRUP, a valu-able paper on progress in medical sci-ence, a treatise on Iron as a medical agent, testimonials from distinguished physicians, clergymen and others, will be sent free to any address. THE new State House bell and the

THE new State House bell and the new clock have been put in their places, but Bennett & Co., at Tower Hall, No. 518 Market St., Philad'a, still stand by their old sign of the big clock. The only thing new is their schedule of prices for good clothing. This is the lowest in the city for articles well made and from good materials. The attention of the salesmen and their straight-for-ward way of doing business is alone worth an extra dollar, but politeness at their store costs the customers noat their store costs the cus

"A Drop of Joy in Every Word." FLEMINGTON, Hunterdon Co.,) N. J., June 26, 1874.

Dr. R. V. PIERCE, Buffalo, N. Y .: Dear Sir:-It is with a happy heart that I pen these lines to acknowledge that you and your Golden Medical Discovery and Purgative Pellets are bless-ings to the World. These medicines

their little voices so sweet, their faces are so pretty, their movements so graceful and so comical, the whole family go baby-mad-and no wonder. No book was ever writen that was half so interesting as a little child that is learn-ing to talk and to think, that is develop-ing from a tiny animal to a being with a conscience and a heart. JAMES O. BELLIS. When a medicine will promptly cure such terrible eating ulcers and free the blood of the virulent poison causing them, who can longer doubt its won-derful virtues? Dr. Pierce, however, does not wish to place his Golden Medi-cal Discovery in the catalogue of quack patent nostrums by recommending it to cure every disease, nor does he so recommend it; but what he does claim
