Messrs. S. W. Fowle & Co. About seventeen months since I was severely afflicted with whooping cough, and had almost given up the hope of recovery. It was a most violent attack of this destructive and dangerous disease. I had tried every remedy which I had heard recommended, but they all falled entirely until a trial of Dr. Wis-TAR'S BALSAM OF WILD CHERRY WAS commenced, the use of which gave im-mediate relief. Under similar circumstances, rather than be without the Balsam, I would pay fifty dollars for a bottle of it, believing that it is the only certain antidote for this disease. I most cheerfully recommend this invaluable remedy to the public.
