### Look on the Cheerful Side.

It is a great misfortune to have a fretful disposition. It takes the fragrance out of one's life, and leaves only weeds where a cheerful disposition would cause flowers to bloom. The habit i one which grows rapidly unless it be sternly repressed; and the best way to vercome it is to try always to look on the cheerful side of things.

An atmosphere impregnated with the seeds of malaria is rendered harmless by the timely use of Hostetter's Stomach fatters; and if a resent to this benign protective agent has un-wisely been deferred until the fever fits have veloped it will have the effect of checking them and preventing their return. This state-ment is corroborated by thousands who have tried this medicine for fever and ague and bilious remittent fever, besides affections of the stomach, liver and bowels peculiarly rife in malarious localities. Throughout the West, indeed in every part of the American continent where malaria prevails, it is the accepted specific. Nor is the area of its usefulness croumscribed by the limits of the United States, since it is widely used in South Ameri-ca, Mexico, Australia, and elsewhere.
