RULES AND REGULATIONS.

round a cask. There were blind beggaas-at least they said they were blind. There were lame beggars, and sick beggars, and palsied beggars-in fact, every kind of beggars but clean beggars. They beset one at the doors. peered into windows, followed car riages, and stuck to every stranger until he was forced to empty his pocket of coppers to be rid of them.

And the boys! Some of them had saved their sous till the necessary franc had been reached, and they were happy. Some of them hadn't a sou to their name, and they were plunged into the depths of misery. In an unlucky moment, remembering that some half a century back I was a boy myself, I gave and inheritance, albeit not by poems, go to the effects. In front of my win-

JOHN MCLAUGHLIN,

INSURANCED IL ENT. d. And over all PORT ROYAL ... her husband's long and frequent Dely reliat ences, reigned our dusky princess, as the s, 18 savage father in his native wilds. She

as see had a strong and powerful mind, and womanly kindness and sympathy as well. One old gegro, who died some time since, so old that no one could remember him as other than old, used to tell how he was brought over when young to this island, where he had lived ever since, and how he and others, sick and exhausted, were ministered to by the "missis" own hands, and how they all loved her and always prayed, "Lord bless Ma'am Hannah!" Every morning as she stood upon this very spot, the field hands passed in review before her, each gang with its driver, going to their daily work. She inspected them all, picking out such as were unfit for labor and sending them to the hospital or to lighter tasks; and very night in the same spot she heard a report of the day, examined into all complaints, and with strict justice adjudged each offender's punishment; and without her order not a lash could be given.—Scribner.

European Forests.

Europe, which pays more attention to the preservation of her forests than America, is also careful not to waste distanwood used in her industries. Many
