Three evenings and one afternoon. She hardly dreamed of noons to be, She never thought of evenings spent She tressured moments as they went-The moments of the fatal three.

Seemed sweeter and the sun more bright; The lake was hid in golden light, And all was glory, everywhere.

O cruel hours to pass so soon! She wondered, as she felt the bliss, Could Paradise be more than this-

-Good Words

Three evenings and one afternoon.

Autumnal Tints. It is very curious to observe the regularity with which we are told in in the autumn that "the first frost will change the color of the leaves," whereas the frost has nothing to do with the
change. It has, indeed, sometimes
change as in least most will
happened in New England that the
follage has changed, as if by magic, in
a single night, so that, upon looking
the eye was surprised with the spectacle of the world wellnigh on fire; and
since this transformation took place in
