A new school history of the United States by Prof. J. C. Ridpath, has awakened fresh in by Prof. J. C. Ridpath, has awakened fresh interest in the subject, even among those to
whom ordinary school-books with a similar object have become distasteful. Teachers and
scholars speak of its prominent features with
enthusiasm, and evidently believe that no
measure of commendation is too good for it.
A hasty examination demonstrated to us that
it contains more genuine and really desirable
information about the Country than any work
of the kind we have seen.

Its prominent characteristics are completeness of narrative, ready helps in maps, dia
