THE SCHOLARS' QUARTERLY (issued every three months), now so popular, will be greatly improved for 1878. Although a large share of the best schools of the various denominations in the country are already using the Quarterly in place of the ordinary question book or lesson leaf, giving it a circulation of 115,000 copies, yet assurances come from all sections, that in 1878 it will be even more widely used. Its editors are determined that no effort or expense shall be spared to keep it in advance of all the lesson helps for scholars. Every superintendent and teacher in the country should examine it before deciding upon lesson helps for next year.
