The proper way to salt stock Perfectly tasteless, eleganity of cure of all disorders of the stong els, kilneys, blackler, nervous ache, constipution, indigestion, tousness, balous fever, inflatinga ed his colossal fortune. He returned to is to have the salt placed under cover, OILCLOTH. — Country buyers, who come into the city for oilcloths, almost invariably ask for that which comes about a yard wide, and waste their time in calculating how much they want. They ought to know that it is possible to buy enough for a moderate-sized room in one piece, and that, by furnishing the carpet dealer with proper measure-tinents, they can have their oilcloth cut in the shop and sent them quite ready to lay down. New York, and lived on Fifth avenue, where, as wealth now poured in upon him, he maintained a splendid estabare well known to chemists as more or less poisonous , because the change of color is artificial, and does not **C. G. BLATCHLEY** ed to effect a periect cury depend on a restoration of the functions of the scalp depend on a restoration of the functions of the scalp to their matural health and vigor. The falling out of the hair, the accumulations of dandruff, and the promature change in color, are all evidences of a diseased condition of the scalp and the glands which nourish the hair. To arrest these causes the article used must possess medicinal as well as chemical vir-tues, and the change must begin UNRE the scalp to be of permanent and lasting benefit. Such an article has been discovered, and, like many other wonderful discoveries, it is found to consist of elements almost in their natural state. Potroleum oil is the article which is made to work such extraordinary results; but it is after the best article has been chemically treated, and completely deodorized, that it is in a proper condition for the toilet. It was in far-of Ruesia that the effects of petroleum upon the hair were first observed; a government officer having discovered that a partially hold servant of his, while trimming the lamps, had a habit of wiping his oil-beamcared hands in his scanty locks, and the result was, in a few months, a much finer head of black, glossy hair than he ever had before. The oil was triad on horses and cattle that the lost their hair from the cattle plague, and the results were as rapid as they were memories. The out was the other were to their natural health and vigor. The falling out o viscera.
