

MIFFLINTOWN: Wednesday, Sept. 11, 1878.

TERMS: Subscription, \$1.50 per annum, if paid within 12 months; \$2.00 if not paid within 12 months.

PENNA. R. R. TIME TABLE: On and after Monday, July 15th, 1878, passenger trains will leave Mifflin Station, P. R. R., as follows:

Table with 2 columns: Direction (Eastward, Westward) and Train Name/Time (e.g., Mifflin Exp., Sunday Train).

Rooms of Republican State Committee, Northeast Corner Tenth and Chestnut Sts., (second floor) Philadelphia.

NOTICE: Hunters are hereby cautioned against trespassing on the lands of the undersigned, in Fermanagh township, to shoot birds or squirrels, without the consent of the owner.

HOYT ON FINANCE: Professing to be an honest man, the candidate of an honest government, I favor honest money.

The volume of currency should be regulated by legitimate demand, and not by the requirements of bankrupts and wild speculators.

The currency should be redeemable as early as the exigencies of the Government will permit, in the currency recognized by all civilized nations.

The contract of the Government should be held as sacred as the contracts of individuals, and the bonds, the evidence of its indebtedness, should be paid according to the understanding between the Government and the lender.

Two thousand years ago the center of civilization was in Italy. The literature, the works of art, and the virtues of those days are not surpassed by the same qualities of the people of to-day.

Many laws were then in operation that now could not be re-enacted. The parent then had absolute control of his children, even to the taking of the child's life, but that seems to have been an older principle of parental government, for the Bible tells of how Abraham was about to sacrifice his son.

There are cases on record of those times which show how highly female chastity was esteemed, and at the same time prove how absolute parental authority was recognized. Roman records reveal cases in which fathers deliberately killed, and opened the bodies of their daughters, to prove that they were chaste, and that certain charges that had been made against them were not true.

Now parental authority has got to be almost nothing, and the State, as represented by its officers, claim, or are asking to be clothed with powers that will take away parental authority entirely. Among such askings is the demand for a "Compulsory Education Law," and so far has this lessening of individual, parental and family authority been carried that now a man can scarcely dispose of the lower order of animals that he owns, without leaving a permit from an officer. Are we on the right track? or are we going to the extremes. Are we better than Abraham, and better than the Romans? Now we have a Society for the Prevention of Cruelty to Animals, that has its recognized cruelty to animals, and that a man desires to get rid of an obnoxious animal, he must know how to execute the best, for if he fails to do it in what is called a "human manner," the agent of the Society mentioned comes in, taps him on the shoulder, and takes him to court, on a charge of "cruelty to animals." Such a case will come before the court in this county, at the next term, upon the charge of E. W. H. Kreider, who is the recognized agent for this county, of the "Society for the Prevention of Cruelty to Animals," against L. A. Segelbaum, for so beating his dog that he died from the effects of the beating. The charge is a matter of record on Squire London's docket, and reads that "L. A. Segelbaum, of the borough of Mifflintown, did wantonly and cruelly beat one dog, the property of said Segelbaum, and that at the time he was abusing said dog, said Kreider requested and demanded said Segelbaum to desist in his cruelty to said dog, or he would be compelled to have him arrested, and said Segelbaum replied, 'You may arrest me if you want to. It is my own dog, and I will do with him as I please.' That on the 5th day of September, 1878, said dog died, and deponent verily believes that the death of said dog was caused from cruel treatment received from the hands of said Segelbaum, and that with such result—Segelbaum gave him the sum of \$100 for his appearance at next term of court.

The Greenbackers are going into by-places, and there telling the people to vote the Greenback ticket, that they cannot make things worse. People should not be misled by the misled men who make such statements. If it were possible to fill up Congress with Greenback men, and fill up other offices so that their views could be manifested in law this year, the business would be so inflated for a year or two—perhaps not for so long a period of time—that the return to a solid basis would be attended by such harder times, for the reason that a reputation of all the present money would take place. They say that a government enactment will make the paper good. So it will, as long as confidence exists, but when confidence is destroyed, it is like the promise of an individual whose promise is not believed.

The Republican party has no quarrel with Greenbackers. It is a Greenback party, but it is not in favor of such an issue of greenbacks, or other paper money, that it cannot be redeemed. It is opposed to the issue of irredeemable money, because it is expended by wrong, and cannot fall of spreading financial ruin broadcast over the land. Men complain of the hard times now that have followed the shrinkage of values; what would the times be if the whole money had shrunk to nothing?

SHORT LOCALS.

The potato crop will not be large. The attendance at court was not large. Farmers are busy preparing to sow wheat. The Lutheran choir has been re-organized. What has become of the Temperance party?

The turnout at the fair promises to be large. Fishermen report eels as going down stream. The river was too muddy to fish for bass last week. Get underclothing ready for the equinoctial storm. Squirrel shooting engages the attention of sportsmen now. If a nation may repudiate its obligations, so may an individual. The Greenback candidate for Governor is a corporation lawyer. Organize literary societies in each of the school districts in the county. A refreshing shower of rain visited this part of the county last Thursday. There are a number of cases of intermittent fever in and around this place. A man can live on two dollars a month if good time is taken. So we are told. There are more wells in town now nearly dry than there have been in such a condition in many years. There will be a bush meeting held in Esplanade's grove, near Hornington, beginning September 21st. Greenbacks, but only in such a quantity that the redemption of the favorite money will not be endangered. The drought has prevented the sowing of as large a number of acres of wheat as was intended for this purpose. Prof. Silas Wright, of Perry county, has become the Principal of the McAlisterville Soldiers' Orphan's School. Pmo Grove M. E. church has been repaired, and will be ready for re-dedication on Sabbath a week, the 22d inst. Joseph Hostetter, aged 77 years and 5 days, died at his place of residence in Walker township, on Thursday, the 5th inst. Philadelphia papers devote some space to a large fortune in New York, that rightfully belongs, or in part belongs to the Van-Horns of this State. Almer Yoder means business; he has now repaired his Cloverseed Separator with entirely new huller, cylinder and concaves with new and improved spikes, and intends hulling by steam. The Printers' Pic-Nic at Lloydsville, last Saturday was largely attended. About 800 were in attendance. The Altoona City Band rendered the music for the occasion. It was an enjoyable occasion for all who were present. The Republican party is the only party that can safely be entrusted with an adjustment of the national and greenback currencies, for the Democratic and Greenback currencies, for the Democracy are hostile to such money, and have hundreds of times declared it unconstitutional. A little while ago the Democracy declared in their platforms that this is a white man's government, now they are issuing circulars to be colored people, that they, the colored people have not received their just proportion of offices. Verily the world moves. In the great contest for Congress and the Legislature that is about beginning, Republicans must not lose sight of the county officers. Let no man induce you to forsake your colors in this contest. Stand fast, shoulder to shoulder, and victory will be ours. The Republican party is the only greenback party that this country has. It made the greenback to crush rebellion with; that work was accomplished. The Republican party also promised, when it issued the greenback, that it should be redeemed in coin; and now the redemption period is only four months away. The Republican party today is in favor of just such currency as will certainly be redeemed. If the Democracy and the Greenbackers get the control of the government, they will upset the whole financial system and multiply the financial distress a thousand fold. If they can break down the finance of the Republican party, by the aid of which this government was made a free government, they expect the reaction that will follow will give them a chance at other measures that grew out of the war. Frank Hughes is the Greenback leader in this State. But a few years ago he denounced the whole money system of the Republicans, which was adopted to save the nation, as unconstitutional. He, with other leading Democrats, failed to bring the money into disrepute in that way, now propose to disgrace it by setting an over-issue, which will result in repudiation. His first effort failed, so will his second. John Dougherty, of Huntingdon county, is a practical economist. He has petitioned, or is about to petition Congress to grant letters of incorporation to the proposed Ideal Reading Association, for the purpose of reading a union of farm and factory life, of association and individualism. Mr. Dougherty is on the right road. If communists wish to be of any account, they must teach the world by practical life, that their system is the correct one. Let them associate in communities and show the world by works what they are. All communists should write to Dougherty. The yellow fever scourge in the South has not abated. The total number of deaths thus far is estimated at four thousand. Thousands upon thousands of dollars are sent daily from the North, to be expended for nurses, medicines, and for decent burial of the dead. Business in many districts has been suspended. Thousands upon thousands of people have been thrown out of employment, and absolute starvation seems to be in store for a large portion of the population, and there seems to be no relief from the disease for the afflicted people until cool weather sets in, which will not be until within sixty days. We are in receipt of a newspaper from Independence, Montgomery county, Kansas, under date of the 5th inst., which publishes a long account of the acts of Sopherus Doughman, from this place, or rather from Patterson, across the river from this town. Doughman was known in Independence by the name of Bob Doughman, and also by the name of Lucien Oberholzer, and his acts in the place mentioned culminated in the shooting of ex-Mayor Brown's son. Brown was not killed by the shot, which was delivered from behind. The bullet entered behind the ear and passed downward through the mouth. Doughman made his escape, but it is believed in Independence that his capture will be accomplished. The Commissioners of Montgomery county have offered a reward of \$50 for his apprehension and delivery to the Sheriff of said county. The annual meeting of the 4th Pennsylvania Veteran Officers will be held in the Court House, in this place, on Wednesday, November 13, 1878. All soldiers of the late war are invited to attend. Citizens are also cordially invited to attend. Com. vs John Vaughan. Indictment—cruelty to animals. J. R. Vaughan, prosecutor—Not a true bill and prosecutor to pay costs. B. F.
