A MOST REMARKABLE CURE.

SETH HANCE, Baltimore, Md.—Dear Sir: Seeing your advertisement, I was imbused to try your Egisepte Pills. I was attacked with Epilepsy in July, 1833. Immediately my physician was summened, but no could give me no relief. I then consolted another physician, but I seemed to grow worse. I then tried the treatment of another, but without any good effect. I again returned to my family physician; was cupped and bled several tires. I was generally attacked without any premountery symptoms. I had had from two to five first adapt at the complete with and was effected in my sleep, and would fail wherever I would be, or whatever he occupied with and was severely injured several times from the falls. I was affected as much that I lost all confidence in myself. I also was affected in my business, and I consider that your Epileptic Pilis cured me. In February, 1835, I commenced to use your Pills, and only had two attacks afterward. The last one was April 5, 1855, and they were of a less serious character. With the blessing of Providence your medicine was made the instrument by which I was cured of that distressing affliction. I finds han, the Pills and their good effects should be made known everywhere, that persons who are similarly affected may have the benefit of them. Any person wishing further information can obtain it by calling at my residence, No. 326 North Third Street, Philadelphia, Pa.
