HUMOROUS.

AN ANTI-SMOKING ENGLISHMAN.—A young Englishman stopped at a tavern in Nashville, Tenn., where he got into conversation with a native Tennesseean. As usual, he boasted of everything English in comparison with Yankee products...

YOUTH'S COLUMN.

Dido.—I know of a funny trick. Her name is Dido, and she drinks her milk from a bottle. But let me begin at the beginning, and tell you all about her. Well, I have a little boy named Morgan, and a little girl named Bessie, and they are sweet, good little darlings...

Blasting Rock With Dynamite.

I know but little about it—dynamite—except from results shown on my field. A Mr. Parmelee, who has made his business to blow up rocks with dynamite, passing my place, I asked him to experiment in one of my fields, which I proposed to clear of rocks. There was a large number of such as could not be blasted with powder, and I asked him what he could do. I said, "I want you to experiment, and if you satisfy me, I will let you work for a day or two..."

PARISIAN RATS.

PARISIAN RATS.—The most numerous, although certainly not the most popular, animals in Paris are the rats. They are found in all the streets and gutters, and there is hardly a house but what is infested with them. As soon as night comes they creep out from their hiding places, and seek their subsistence on the heaps of offal and among the garbage before the house door...

THE FAT MEN'S CONVENTION.

THE FAT MEN'S CONVENTION.—We can see some pleasure if no reason, in the convening of a baby show, but we confess we could never see the slightest cause, reasonable or otherwise, for a fat man's convention, unless it be for the fact that misery loves company. For fifty or a hundred men, who were several weeks range from two hundred to three hundred pounds, to hold a convention simply because of so much surplus adipose tissue is absurd, to say the least. It becomes doubly so when we reflect that obesity is a disease. What would we think of a man, who, after having been afflicted with this disease, should call a convention to compare their relative weights. There is but one ground upon which the need of such a convention is to be seen, and that is, that they will meet to discuss the merits of Allan's Anti-Fat, the only known remedy for this disease, and a safe and reliable. Sold by Druggists.
