The elevated railway in New York has been such a success, that now Philadelphians are seeking the means to get legislative enactment to allow them to build elevated railways in the Quaker City. The Master in Equity, Mr. Sibert, took testimony, last Thursday and Friday, in the Orphans' Court room in the Court House, in the case between the Presbyterians of Lost Creek, and Millintown.

John Hineman was killed at Lewis- town Junction on Saturday a week, while coupling cars. He had taken the place of William Gibbs, who was killed only a few weeks previous. All subscribers in arrears, more than 12 months, on the 1st day of April, 1879, will be charged full arrearages as advertised.

The Philadelphia Board of Health come forward and state that 1000 people die in that city every year from "scarlet fever," diphtheria, and typhoid fever, which is engendered by sewer gas and polluted water. A down town contemporary says: A young couple were found at the front gate, one night this week, locked in each other's arms. They said the combination was lost, and they couldn't get it, because the janitor was asleep.

Mr. Samuel Cooper, the new Mercantile Appraiser, will soon be around in the discharge of his duties. Mr. Cooper is a courteous gentleman, and will make an efficient officer. He was on the Republican ticket last fall, as a candidate for Auditor. A city correspondent, writing from Harrisburg relative to the Columbia dam question, says: The indications are that a legislative committee will soon make a pilgrimage to the region of the Columbia dam to see if the salmon cannot be induced to swim over that obstruction, or to provide some right of way by land around it.

The bill making an appropriation of \$20, 850,000 for the payment of arrears of pension passed, on Monday, by over a two-thirds vote. If the arrears pension business does not interfere with the payment of the regular expenses of the government, and does not increase taxation, the country will receive it most kindly. Some evenings ago, a young man named McManie, from Port Royal, and a young man named Maxwell, a resident of this place, got into a dispute which resulted in the use of a billy in the hands of McManie, and a hatchet in the hands of Maxwell. McManie was considerably cut about the head and neck.

David Stonfer, living on the E. S. Parker farm near Johnstown, this county, had his left leg broken near the ankle joint, on Tuesday morning. He had been thrashing on in the barn, and was working near the platform that is usually built between the machine and the mow, when by some unaccountable cause the platform fell down, resulting in the injury mentioned above. They are trying to get an act through the Legislature to make a copy of "Purdon's Digest" for each house, and that the book shall be chained to the Speaker's desk. The Lewistown Sentinel of last week says: Mr. Utley, with Messrs. Garreff and Clay, have had to evict a body of tramps who had made a rendezvous on the Burns farm below the Junction, and had commenced to raid on the fences. "Have you ever been in prison?" asked a lawyer of a witness, whom he was disposed to bulge and bully, as the profession are apt to do. "Yes, sir." "When?" "In 1863." "Where?" "In Andersonville." There was a momentary pause for breath, and then a round of applause that shook the court room.

The Sheriff of Washington county had his hands full last week. A riot broke out in California, in his county, among three to four hundred miners. At one time he thought he could not subdue the rioters without calling on the State for troops, but after the arrest of some eighty people, he got complete control of the trouble. On the question of stocking the Juniata river with California salmon, the Annota Tribune of last Saturday writes: Yesterday afternoon Mr. Seth Weeks, who has charge of the State hatching house at Corry, put into the Juniata river, at Rhodes' dam, at the lower end of Hollidaysburg, fifteen thousand California salmon. The fish were about two months old, from one inch to an inch and a quarter in length, and were in a good condition considering the long journey they had made. Few of them had died. They are an exceedingly good fish, and after they get a start can readily take care of themselves. All of this school that survive the vicissitudes of the stream, exceed the voracity of the black back, after a year's residence in the Juniata, will seek the waters of the ocean. After reaching the proper age they will return to the spot where they were first planted, as their spawning ground. We hope these small fry may escape all their enemies and some day return to the enjoyment of the enjoyment of the finest sport in catching salmon with rod, line and fly. This variety can scale any obstruction in the river from ten to twelve feet in height, and by the time they are fit to return to the headwaters of the Juniata we hope to see the Columbia dam razed.

The Chambersburg Repository says: A few days ago two ladies called at the National Bank of Chambersburg, and presented for redemption a twenty dollar note, of the old issue, when the bank was a state institution. They had held it since before the suspension of specie payments, when it was redeemable in gold. Its gold value during the war was less than ten dollars at certain times, but then finally ascended to the bank it was worth par in gold. There is very little of the old circulation in existence. On Monday week Madame Anderson was fined in Allegheny City for her Sunday walk, and the amount was made up by citizens of that place. A dispatch from Kittanning says Sheriff G. A. Williams, who was convicted at the December term for perjury and using money for election purposes, was sentenced to twenty-five months imprisonment in the penitentiary and to pay a fine of \$300. Williams has been in office since January, 1877. A late attaché of a Philadelphia theatre bequeathed his lead to the house to be used as the skull in "Hamlet," and yet there are people who deny that the American stage is getting ahead.

A farmer was recently attacked near Williamsport by a panther, and escaped with considerable difficulty. Anthony Sedelmyre, who rose from the ranks of a mole in the ore mines of the Cambria iron company to be chief clerk of the First National Bank of Johnstown, died in that place of consumption last week. Joe Williams, a colored man dropped dead Friday as he was about to leave the Delaware county jail, his term having expired. A few weeks old child died in the arms of his mother Mrs. John Reed, in Centre county, while she was being driven home in a buggy by her husband last week. John Bowers, a Huntingdon lawyer has become a preacher of religious liberty, "abandoning the law of man for the advocacy of the law of God." G. W. W. Waddell, the Waynesburg lawyer whose attempt at suicide when a clerk in the Auditor General's office will not have been forgotten, died on Wednesday, after a protracted illness.

The miners' disturbance at California, Washington county, has been wholly quiet. A dispatch from Pottsville, on the 13th inst., says: Yesterday some sixteen houses owned by miners in Shenandoah county, were being burned to the ground, and some of them have already sunk two or three feet and are still moving. The inmates have all removed to places of safety, taking with them their furniture. The sinking is caused by the "robbing" of coal pillars in the Kohinor mines, directly under that section of the town. In the Blair county court, on Tuesday of last week, a juror, sitting upon an important case, was by mutual consent of the respective parties to the suit excused from duty on the representation by him that he had other business of more importance—to him—and the case was continued with eleven jurors. He wanted to participate in a wedding, that evening, in which he was to figure as the groom. As a policeman was passing along an alley near the Allegheny Park yesterday afternoon, a dog came tearing by with something in its mouth, which the officer at first supposed was a large meat bone. He called to the dog, when the animal dropped what he had been eating off not by the dog but probably by the rats. A few small tendons still remained, with a small quantity of blood coagulated about them. The heart was also discovered frozen solid, a short distance from where the dog was first seen.—Johnstown Tribune.

STATE ITEMS.

The Lauchter papers state that the prices now offering for the tobacco crop are the fairest of the season. The charitable societies of Reading are furnishing one hundred and thirty-eight families, daily with a fair article of soap and whole some white bread. Ida House, aged sixteen years, and the wife of a very old man, died in the almshouse at Harrisburg on Saturday afternoon from the effects of a severe cold. The riflemen of Chester county shot for membership of the team which is to shoot against the Pennsylvania team at Philadelphia some time in March. Six men were pronounced members of the Chester county team. Mrs. Col. J. G. Parr, of Kittanning has contributed to the Loan Exhibition at Pittsburgh, an almanac for the year 1730, which was printed and sold by Benjamin Franklin, when he was not quite thirty years of age, and more than forty years before he put his name to the Declaration of Independence. Joseph Ward purchased a Delaware county bond in 1864. Last week it was returned to the commissioners without a single coupon detached. The bond was for \$500 and the interest amounted to \$380. A bald eagle measuring seven feet four inches from tip to tip of its wings was shot near Greenville last week. The churches of Meadville have added largely to their membership this winter. A fair was held at St. Michael's Church, Chester, at which over thirty dollars in spurious coin was taken. It has recently been shown that counterfeit money has been a rage in that county—\$500,000 counterfeit money was printed at a house on the Chester road near Darby, and at another near Oak Hill. Between twelve and one o'clock on the 11th inst., six prisoners escaped from the county prison, at Lebanon, by cutting a hole in the ceiling of their cell. There are at present between fifty and sixty prisoners confined there, including seven charged with murder—one of whom has already been convicted—and the building is so insecure that the sheriff is powerless to hold prisoners in his custody. Samuel Miller, a farmer, aged about forty-five years, who has recently been married left his home, near Banker Hill Station, Lebanon county, at five o'clock on Monday afternoon a week and was found hanging from a cherry tree near that place. It is believed that he was laboring under an aberration of the mind. On Monday week Madame Anderson was fined in Allegheny City for her Sunday walk, and the amount was made up by citizens of that place. A young unmarried man named Stacker attempted to jump on a moving freight train, in Pittsburgh, yesterday, and falling under the wheels was almost instantly killed.

CUPID.

Love in my bosom, like a bee, Dost suck his sweet; Now with his wings he plays with me, Now with his feet. Within mine eyes he makes his nest, His bed amidst my tender breast; My kisses are his daily feast, And yet he robs me of my rest— Ah! woe, woe, will ye!

And if I sleep, then pierceeth he With pretty slight, And makes his pillow of my knee The live-long night. Strike I my lute, he tunes the string, He crooneth me, my heart doth sing; Yet cruel he, my lovely thing! Ah, woe, woe, will ye!

Else I will roose every day Will kiss ye hence, And bid ye when ye long to play, For your offense. I'll shut my eyes to keep ye in; I'll make you fast to my fair skin; I'll count your power not worth a pin— Alas! what hereby shall I win If he gainsay me!

What if I beat the wanton boy With many a rod? He will repay me with annoy, Because a god. Then sit thou safely on my knee, And let thy bowyer my bosom be; Lark in my nest, I like of thee, O Cupid! so thou play me true, Spare not, but play thy true.

Thomas Lodge, 1560.
