Lake Lobnor.

An officer of the Russian service, Colonel | for four or five days. Priwalky, has published an account of an expedition made in 1877 to this almost unknown lake of Central Asia, and although Baron Richthofen, one of the highest geo graphical authorities in the world, denies graphical authorities in the world, denies that he reached the true Lobnor, the Colonel's story is sufficiently interesting that he reached the true Lobnor, the matra, which had broken her shaft just dislocation of the jaw. aware, face to face with one another in Central Asia in the province of Kuldja, lately in rebellion against the Chinese but lately in rebellion against the Chinese but men of mystery. He came on board, now reduced to submission. With the prospects of peace and war in that quarter perform there.

Bilisters nave even found by the French surgeons very useful in premoting the resolution of enlarged glands, even including those which have begun Colonel Priwalky left Kuldja and traveled southeast and he struck a great river, the Tarim, which drains a wide tract of country to the north of Gohi district, and finally to the north of Gobi district, and finally flows southward, losing itself in the sands eighteen inches high. of the desert, or at last collecting such waters as it has left in a shallow lake on with a venemous cobra, which he carthe 90th degree of west longitude and the ried rolled in the cloth about his loins, 40th parallel. The lake lies in a southwest concluding with a very clever trick, in and northeast direction, about sixty miles which two pigeons, one black and one Its inhabitants are its most strange charact- to bother the man, who was very con- ner, the last portion of the tobacco be eristics. They seem to approach the an-conceited about himself. cient lake-dwellers in their habits, for they structed of reeds. The whole region is un-known to modern explorers, and Colonel be rouled the best off the bird. He he pulled the head off the bird. He unpleasant and unhealthy as compared wholly new to modern geographers. After reading an account of the Colonel's advening, struggling, dying bird in the other, tures one is inclined to lose patience with and then threw them overboard. a stay-at-home geographer, however emi-Asia. He will proceed by Orenburg, Omsk and Semipalatinsk to the Chinese frontier, thence to Hami, Hansu and Lassa. From with merry eyes at the juggler's disthrough the stem, which causes the to-Lassa he intends to reach the Himalaya by tress. Then when the row was at its bacco to burn upward, all below being the Brahmapootra. Returning thence to height and I began to feel uneasy at the consumed. This is a sensible way of Lassa, he will visit Khotan, Kashgar, and prank, Robert suddenly raised his smoking the time honored pipe. cross the intervening plateaux to Russian hands—oh, those beautiful, white, won-Khokand. The journey is to occupy two years. While reviewing the subject of der-working hands. He mysteriously wars. While reviewing the subject of Russian exploration in Central Asia we may mention also accounts of two ancient cities, Mistorian and Meshed, probably relies of Khowrasmian times. The former of those cities must have been one of the most important in Central Asia. Its aqueducts cover a great tract of country, and one of them was traced some forty miles (sixty-five verts) to its sourse. The building material appears to have been for the most part brick, which are still in perfect form and uninjured by the passage of untold centuries, bearing carved work and 'inscriptions and sometimes colored decorations and arabesques executed with considerable skill and taste.

der-working hands. He mysteriously beckoned, as if summoning the dove from its watery grave, and pointed up-ward, and pointed up-ward. There was the white dove circling round in the air; in one moment it alighted on the piece of carpet before its despondent owner, unbarmed. Curses gave way to profound salaams and prayers that the great white magical might never die.

—Mrs. Lunsford, of Auglaize county, of their residence, several weeks ago, died of grief afterwards.

AGRICULTURE.

more painful, more exasperating, discouraging and persistent than Piles, especially to afflicted mortals who have tried lotions, ointments, pills, electuaries and all manner of nostrums and doctors' stuff, internally and externally, without relief. What wonder is it that half a million redeemed sufferers should shout ho mainor redeemed suiterers should shout no-sanina over the discovery of Analosis, an in-fallible cure for Piles? This medical miracle, so simple as to excite wonder that wise doctors have not thought of it before, so prompt and certain in its action as to secure for itself the title of infallible, so scientific and rational in its combination of poultice, instrument and medicine, as to render the ultimate cure of 95 per cent. of average cases of piles sure, is no an accidental discovery, but the solution of a problem by the study and experience of Dr. Sibbee, an accomplished and distinguished physician of 40 years' standing. It has stood the test of 20 years' experience; over half a million of sufferers have used it with success, and doctors of all schools now prescribe it i their prectice, and it is pronounced to be the nearest to an infallible cure for piles yet dis-covered. Analosis, Dr. S. Silsbee's External Pile Bemedy, is sold by druggists everywhere. Price \$100 per box. Samples mailed free to all sufferers on application to P. Neustaedter & Co., Box 3946, New York.

Theological students reason that if

there be counterfeit money, there must be genuine; so, if there be infidels, there must also be Christians. If this be true of money and religion, will not the same rule apply to "put-up" medi-cines? Do not the cheap and worthless nostrums prove that there are genuine and meritorious "put-up" medicines? and meritorious "put-up" medicines? The great popularity of Dr. Pierce's Golden Medical Discovery has resulted in the manufacture of many shoddy al-terative and tonic remedies, but one after another these have disappeared, the proprietors having found that, no matter how loud they advertise, success depends upon merit. In South America, as well as in this country, the Discovery is the standard remedy for all scrofulous and eruptive diseases. It acts promptly on the stomach, liver and blood, toning up, regulating and purifying the system. It speedily allays all bronchial irritation and cures the most stubborn cough or cold in half the time required by any other remedy.

Improved Platform Scale.-A platform scale in constant equilibrium has been invented in France. On a stand next to the platform are placed the register They put him down in black and white, and then they put him in a cell.

When he had sobered off a bit he constant equilibrium. The principle constant equilibrium. The principle by which the equilibrium is restored as soon as it has been disturbed by somcause or other, is this: If there be placed on an ordinary balance a glass full of water, counterbalanced by a weight, and if there be dipped into that glass a mass, whatever it may be, hang-ing from a thread, the equilibrium will destroyed,-in proportion as the the equilibrium. It is such a plunger that has been resorted to to establish th

state of constant equilibrium on the platform scale in question. Under the ittle platform of the instrument is a cylindrical vase, three-fourths filled with water, and a cylindrical plunger, of which the supporting thread is rolled over a pulley, is lowered or hoisted by the wheels of the pulley as soon as the diately, and the motions of the pulley traces of all its movements.

Unparalleled Success of The Mail Department for Samples & Supplies at the Crand Depot, during the past season, has necessitated an entire refitting of the Interior of the large room devoted exclusively to executing orders received by mail.

THE LARGEST DRY GOODS & OUTFITTING HOUSE. Though you live a Thousand Miles from Philadelphia, you can purchase at the Grand Depot an entire outfit or the smallest article in Dry Goods, etc., with the greatest ease.

and an absolute certainty of the same exact attention that is paid to customers who visit the establishment in person. CRAND DEPOT Precision, Promptness and Experience, combined with the highest regard for even the slightest wishes of those who order, and

a now almost faultless system, peculiar to the Grand Depot only, make this the Model Department of its kind in America. THIRTEENTH ST., CHESTNUT TO MARKET STS. Send a Penny Postal Card, specifying

what is desired, and by return mail you will receive, postage paid, samples of the newest styles of Goods, with the widths and lowest city prices, besides full particulars
