An Ancient Belic.

Mr. James P. Swift, agent of the doubly sure. Equity Coal Company, of Evansville,

Ind., is the owner of a musical instrument which has attained a remarkable remove top soil. One of the troubles is age, surviving by many years all the human beings who started out on the human beings who started out on the voyage of life with it, unless, perhaps, it be the old South American soldeir who has lately come to light, in the clip bottom is best-a few water lilies who has lately come to light, in the newspapers, at the age of one hundred shade trees around the edges. But a and eighty. An inscription, inlaid in friend who has had considerable experthe case shows that the antique piano ience, informs us, that unless a pond was "Repaired and improved in 1707 can be sensed, there is great difficulty in by James Henry Houston, Grand and catching the larger fish Both shallow Square Planoforte Manufacturer, War-doar Street, London." How many

years it had been in use when these repairs were made, there are no means of knowing, but it is safe to say the pi

ano, or more properly speaking, harpsichord, is not less than 175 years old from Paris, in which city he had providin New Harmony in 1825. It came into which we in New York are entirely unhighly polished. A pattern of leaves gloves, but I like these the best of and flowers inlaid in different colored all."

woods, ornaments the space above the "Whose gloves are they ?" key-board. The keys which are comparatively few in number, as it is an over Paris-'Gant's Gloves.' " instrument of but five octaves are yellow with age. In the rage for the an-

A sheep should be lifted by placing the arms around the body and near the erable above the average. forelegs. This is the easiest way to do

especially with large sheep. To catch the animal, the hands should be thrown ion among zoologists as to whether the camel exists anywhere in a wild state long enough to warm, then add a table-"Yes, I do." "And you think the smoke-jack will o it?" one with the hand or the crook, and when this way is adopted the utmos

er that when the crook is used upon a sheep which is is closely surrounded by

other sheep, that great care must be exmay be done.

PLANTING EVERGREENS .- We advise Food digests more rapidly if fat be nixed with it. Fat also takes an im-

portant part in the formation of cells, blood corpuscies and the generation of blood. Hence the excellence of cod-"Has she stopped smoking?" "Well I dont see any smoke at all," liver oil in consumption.

It is asserted that rubber tubing may be rendered impervious to coal gas by painting it over with water glass or olution of silicate of soda.

A Famous Tobacco-Box.
