

YOUTH'S COLUMN.

Little Benny's Little Fishes.—Little Benny had come up to his grandfather's in the country.

He thought it was always summer in the country. It was the middle of April, and it was the very next day after he came.

Benny stood at the window watching the large flocks of snow coming down, lighting on the tops of the trees of grass, and all over the little twigs and boughs of the shrubbery and trees, and he was most, because he wanted to go fishing, and he thought "soaps" didn't go fishing when it snowed.

Then he wished he had brought his sled and his mittens.

But before he had done thinking about that, out came the sun, which so "priest" the large downy snow-flakes that every one of them ran away and hid.

Those which could, run right down into the ground, to come up flowers by-and-by, and some which had lighted on the stone walk and stones and could not get into the ground, flew up into the sky to come down again, and when they were down they were "snow" again.

When he returned the next time he had a lot of cold water on his nose, and he had held the dipper so tight to him that the water had stopped, sloped, sloped, all down his clothes.

When he returned the next time he had a lot of cold water on his nose, and he had held the dipper so tight to him that the water had stopped, sloped, sloped, all down his clothes.

When he returned the next time he had a lot of cold water on his nose, and he had held the dipper so tight to him that the water had stopped, sloped, sloped, all down his clothes.

SCIENTIFIC.

Pitting in South-Sea.—Mr. Gregory, of Montreal, Canada, has found that the result of pitting, the said and permanent result of small-pox, ought rarely to be seen in any civilized community.

A water-level indicator has been introduced at the Leaning Tower Water-works, England, that serves to show the line for a certain space of time, and the water in the reservoir, which is half a mile away.

Clearing out Torpedoes.—It is known that dynamite torpedoes of from 100 to 200 pounds will ignite one another if sunk in ten feet of water, at intervals of 30 feet, and if they are exploded.

Plaster of Paris.—Plaster of Paris may be made to set very quick by mixing it in warm water, which is heated to 100 degrees Fahrenheit.

Effects of Quinine on the Hearing.—It is a well known fact to medical men that there is a large number of people who have an article now before us of a writer of distinction as an agriculturist, who advocates frequent watering of the soil.

The Electric Light.—As is often the case with new inventions, those in relation to the electric light are trading on one another's heels.

A Plague of Locusts.—The Georgian town of Jelizwepol, near Tiflis has suffered a plague of locusts almost as bad as that which afflicted Egypt in the days of Moses.

Hold on Boys.—Hold your tongue when you are just ready to swear, lie, or speak harshly.

Hold on to your hand when you are about to scratch, steal, or do any improper act.

Hold on to your temper when you are on the point of kicking, running off from study, or pursuing the path of terror, shame, or crime.

AGRICULTURE.

A FARM DEED.—It is highly important that every farmer should know exactly what a deed for a farm conveys.

THE USE OF THE LEMON.—There are three ways of making lemonade: To squeeze the juice into cold water—this is the best.

POPULAR CURES FOR WARTS.—One old mode of charming them away is to take an elder shoot and rub it on the warts.

BREAD AND BUTTER PUDDING.—Butter a mould well; take any stale bread crumbs or cake, and grate or crumble it.

CURRANTS.—If these were not so common how greatly they would be admired and valued, and what wonders of cultivation they would induce!

DRESSED FISH.—Take a pound of cold cooked fish of any kind, two ounces of butter, an ounce of flour, half a pint of milk, a little grated nutmeg, a little pepper and salt.

CHOCOLATE DROPS.—Pour half a pint of boiling water on one quart white sugar, and boil it for an hour.

WATERING HORSES.—There is a great diversity of opinion as to how often horses should be watered during a day.

A CHILD'S BED SHOULD SLOPE A LITTLE FROM THE HEAD TO THE FOOT.

GRAHAM GEMS.—To one pint of sour milk take one egg, one teaspoonful of sugar, well beaten, and one teaspoonful of soda.

THE USE OF WATER IN PLANTING.—It is a very common error to throw water around the roots of trees, and to keep around the roots to inquire why.

Carrying a peacock on your head does not make you a nobleman.

The system is often so rapidly reduced by a severe attack of influenza, that the patient is unable to get up, and the disease is often fatal.

DOMESTIC.

MOLASSES CANDY.—It is a pleasure to see children rolling about on the deck, with their faces mahogany colored, rising from molasses candy.

THE STATESMAN FELT THAT IN THIS CASE AN EXCEPTION MUST BE MADE.

THE YOUNG MAN SCRATCHED HIS HEAD, LOOKED VERY MUCH EMBARRASSED, AND FINALLY SAID:

REDCUP EXPENSES.—"I say, George, what makes you look so cheerful?"

THE CONTRARY JAPAN.—A piece of cord in Japan is twisted from left to right in process of manufacture.

HONORED AND BLESSED.—When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable ingredients.

WORKS, WORKS, WORKS.—E. F. Kunkel's Worm Syrup never fails to destroy Pin, Seat and Striped Worms.

THE SCOTCH MINISTER IN ONE OF HIS PARLORIALS, MET A COV-BOY, AND ASKED HIM WHAT O'CLOCK IT WAS.

THE GENTLEMAN BEING THREATENED WITH AN INFECTIOUS FEVER SAID TO HIS LITTLE SON, WHO IN AN AFFECTIONATE MANNER WISHED TO EMBRACE HIM.

"AND HOW DOES CHARLIE LIKE GOING TO SUNDAY SCHOOL?"

THE ORGUMENT.—The most wonderful musical instrument of the age; plays purely mechanically.

Oakland Female Institute.—Will be re-opened September 29th.

TEAS.—Cholera in the West—Importers of Tea—Large Company in America.

The Voice of Worship, for CHOIRS, CONVENTIONS AND SINGING.

THE TEMPLE.—For Singing Schools, Conventions and Choirs.

FATINITZA.—The new and very favorite opera, is now ready.

HUMOROUS.

THEY WENT AND PROVED IT.—A statesman was once in conversation with a few friends.

"Well," said the statesman, leaving a deep sigh, "that was the course I once entered on public life with a resolution that, whatever the press might say of me, I would take no notice of it."

"What number, sir?" inquired the clerk, who had been waiting.

"Why, I've been married eight months, but this shoe business stumps me. I don't hardly believe she wears 'leaves, and I don't think she kin get into 'em."

"Why, my dear fellow, it will be the happiest day of your life. You see, Matilda is a very expensive luxury. She wants to go to the opera every night, it's cream on the way, a pound of costly jewelry here, and soda water on the way home—I tell you it's a terrible drain on a fellow's pocket."

"HONORED AND BLESSED.—When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable ingredients.

An American's Fight for Life.

Joseph Brower, an American citizen resided for several years with his family on the productive island of La Mocha, at the mouth of the Chilla river.

Several varieties of productive farm. Several varieties of wool, oils and fish were abundant, and were exported and sold not only to Chili but throughout South American countries.

Several months ago one hundred natives and engaged over one hundred natives as laborers in the country. The article of diet given the laborers throughout the republic of Chili is a species of beans which is very nutritious and is grown in abundance in the country.

He was given a pair of eight, and after squinting along the soles, he observed: "I guess them'll do. She's awful proud, and I know'll she'll squeeze into 'em all she's worth."

"Why, didn't you hear, Bob, I'm going to be married on Wednesday."

"Well, I must confess I see nothing in that to make you look cheerful; I should think it would make you feel sad."

"Why, my dear fellow, it will be the happiest day of your life. You see, Matilda is a very expensive luxury. She wants to go to the opera every night, it's cream on the way, a pound of costly jewelry here, and soda water on the way home—I tell you it's a terrible drain on a fellow's pocket."
