The music of the past was all feeling and sympathy, with little that appealed to the intellect, and nothing that appealed to a the oils, but small success has hitherto refined taste. But we have seen a whole attended the endeavor. A new process congregation in tears as they sang that fine has lately been patented in England, old hymn. "Taking the parting hand." which has, it is said, proved satisfacto-Who ever saw a tear start at the bidding of ry. The patent applies not only to a choir? It was not the pathos of the those oils which are found native, such poetry alone that stirred feeling so deeply. as petroleum, but also to those that are There were tears in the melody, sympathy obtained from coal, schist, asphalt and in every note, though there were graceful other minerals. In order to render armonies nowhere. Another grand old such olls capable of saponification they ture, at least in the outlying "mission" con-gregations, but do choirs ever sing it? It is a magnificent melody, equal to Luther's solidity according to the nature of the "Ein fest burg," and is very expressive of Christian resolution. Nothing more admirably adapted to the force and volume and there are powerfully detergent and disinfectant, and baths formed by and an analysis and the force and volume and them do not putrefy even after use. enthusiasm of congregational singing lies Such being the general nature of the within our knowledge. Probably that is within our knowledge. Probably that is new and improved process, the manner moved is a pitiable animal indeed.

velcome home." The air is fine, and finely adapted to congregational singing, the that lies latent to it.

and meaning, than a national Congressman, and no more flavor than a poplar chip. A song frequently employed fall, a a hortatory fashion, as its language in suited the occasions on which it was used, and we have had no choir singing half as apt or effective. A beautiful melody was usually, or always, so far as we remember, usually, or always, so far as we remember, sung to a song in which occurred this

O that I could, with happy John, Recline my wearied head upon The blest Redeemer's breast. From care and fear and sorrow free Give me, O Lord! to find in three My everlasting rest.

There is nothing finer in either music or quee to notice all the fine old sacred songs | a coating of nickel. to us is a positive loss to the cause of religidation, ye saints of the Lord," is the first where it is is rated by boing condensed line of a growth. on, because it is the loss of an instrumentline of as grand a song as can be found in in an air current. It is then purified of Christian faith, the song of a full soul The result is fresh, well-scratch, inodorall hymnology. It is a jubilant expression pouring out its trust for the encouragement of weaker or emptier souls. And the melody has a movement as majestic as "Old a miniature of an object, such as a spider Hundred," and more vivacious. It is a line, and examining it with the microsuperb melody, and neither good taste nor scope, an English naturalist has found Christian feeling should allow to it lapse out of the worship it is so well adapted to lionth of an inch could be seen, and inspirit and elevate. But we never hear a takes exception to the view generally choir sing it. In fact, it is not a choir song prevailing among opticians, that it is half as good, even for choir service.

Books Certificates—It is no vile drugged stuff, pretending to be made of wonderful foreign roots, barks, &c., and puffer up by long bogus certificates of pretended miraculous cures, but a simple, pure, effective medicine, made the shelves. Miranda returned to the room in horror and cried, "We shall both be killed when he comes home!" "Nivir te fear, mum,," said Biddy, "Til make it all right." And sure enough, when the judge saw the room, Biddy had produced thirty law books teamful for the eare you manifested in having a said my instrument was worth \$450. We are teamful for the eare you manifested in having a said my instrument was worth \$450.

Respectfully yours. S. S. Davis, M. D. RALEIGH, North Corolina, February, 18th, 1878.

other make, by critical judges of such instru-ments, professors of mus c and others, whose high character and prominence as musicians in this community cannot be questioned; and they all attest, as to its merits, the pure rich tones which it gives are perfectly exquisite, and its Mathushek's scale give it an attraction and value which is not possessed by instru-

ents of other make. my friends who may desire to purchase, and to being them to notice in our community.

Truly yours, (Judge) Cass, D. Urentracu. We take great pleasure in again calling the ettention of our friends and readers to the Mendelssohn Company's Jubiles Organs, a notice of which appeared in these columns
