AGRICULTURE.

EGG-EATING BY PULLETS.—As a general thing, this habit is introduced by the accidental breaking of an egg. It may be induced by blowing egg shells into the kitchen to the poultry yard; they should be broken into small pieces before giving them to fowls.

DOMESTIC.

TO PREPARE FISH.—Fish is delicious for the dinner-table, and of itself often suffices for a good dinner. But it may be made more palatable and served in a more appetizing manner.

HUMOROUS.

"CLAMAY PROFUNDUM."—The proprietor of an oyster house, in Providence, R. I., was one day sitting at the entrance into his establishment.

CONSUMPTION.

An old physician, retired from practice, having had placed in his hands the formula of a simple vegetable remedy for Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung Affections,

CONSUMPTION.

The substitution everywhere of the hundred pounds avoirdupois for the uniform standard of weight for produce transactions, in place of the bushel, quarter, or hundred weight of 112 pounds, and ton of 2,240 pounds, is greatly to be desired.

CONSUMPTION.

As old farmer out in Indiana says that for his part he don't know where the present rate for trimming bonnets is going to go, he has bought his daughter a humming bird; next year she wanted a robin, the next a pheasant, and this season he declares he had to buy a turkey.
