Among the many thousands of ladies who have used Dr. Pierce's Favorite Prescription and pronounced it their favorite remedy, because so efficient in the diseases and weaknesses peculiar to women, are many who are well and favorably known in the world of letters, as well as artists, musicians, and a whole host of names from the brilliant ranks of wealth and fashion. It pre-eminently the ladies Favorite Prescription, its use, while being far more safe and efficient, exempting them from those painful, caustic opera-tions, and the wearing of those mechanical contrivances made like Peter Pindar's razor-seller's razors-to sell, rather than to cure.

Mr. H. R. Stevens:
Dear Str.—I have taken several bo ties of your vegetine for Female Weakness, and in justice to the medicine, and to all ladies who are sufferers from such complaints. I will recommend the Vegetine. I must say it has helped me very much; indeed, it is invaluable for such companies.

II. R. STEVENS, BASION:
Dear NIT—for a long time I have been troubled with Female Weakness and a weak, sinking feeling at the stomach, and through the advice of a friend, I tried your Vegetine, and that it just what is needed. I can recommend it to all suffering from those companies. Wine may be kept from turning sour by the use of the acid; brewers find it useful in some of their processes, and

If you feel duil, droway, debilitated, have sallow color of skin, or yellowish-brown spots a face or body, frequent headache or diztiness, bad taste in mouth, internal heat or chilisteranted with hot flushes, irregular appetite, and tongue coated, you are suffering from celical Discovery has no equal, as it effects perfect and radical cures.

In the cure of Branchitas, Severe Coughs, Weak Lungs, and early stages of committees, it has astonished the medical faculty, and eminest physicians pronounce it the ceatest medical discovery of the age. Sold by druggists.

We assert that there is no known remedy that possesses the curative power over these diseases that Radwar's Risolviest furnishes. It cures, step by step, surely, from which new material is formed. This is the first corrective power of Radwar's Risolviest. In cases where he system has been salivated and Mercury, Quicksiver, Corrosive Sublimate have accumulated and become deposited in the cones, joints, etc., causing caries of the bones, rickets, spinal curvatures, contortions, white swellings, varicose verins, etc., the Sarsaranthian will resolve away those deposits and exterminate the virus of the disease from the system.

If those who are taking these medicines for the cure of Chronic, Scrohilous or syphilips diseases, however slow may be the cure, "feel better," and find their general health, improving, their fiesh and weight increasing, or even keeping its own, is a sure sign that the cure is progressing, Oin these diseases the patient either gots better or worse—the virus of the disease is not inactive; if not arrested and driven from the blood it will spread and continue to undermine the constitution. As soon as the Sazzarantha makes the patient "feel better," every hour you will grow better and increase in health, strength and flesh.
