### Cab and Tenger

"He's in the dumps because his locome tive has been 'off' for three or four days," said a railroad man at the Union Depot the looked as sour as any dyspeptic.

"How off ?" "Go and ask hun."

It took a quarter of an hour and a cigar to clear the cloud from the engineer's face, and then in reply to the query, he said :

"It is a queer thing. There's my engine one of the best on the road, in perfect or der, only two years old, and able to run or pull with the best of them. A month ago I hadn't the least bit of trouble in making ime no matter how the track was or th time no matter how the track was or th weight of the train. She was ready at the ing gardens, brazen gates and walls onions. A field of onions can not be word, held her steam beautifully, and she 300 feet high, a canal built 1700 B. C., neglected on account of a demand for seemed to understand every word I said. and which, reopened by Nebuchad- labor on other parts of a farm. Unless seemed to understand every word I said. To-day she is down in the round house, growling and sputtering and acting as if she wanted to pick a fuss with a gravel.

"Anything out of gear?" "Not a thing. She's been looked over twice, and we can't find the least excuse the distance of 1000 miles. In the Yangtsi Kiang, 500 miles distant, forms a communication from Pekin to twice, and we can't find the least excuse the distance of 1000 miles. In the Yangtsi Kiang, 500 miles distant, form a communication from Pekin to twice, and we can't find the least excuse the distance of 1000 miles. In the Yangtsi Kiang, 500 miles distant, form a communication from Pekin to the Yangtsi Kiang, 500 miles distant, form of the the test excuse test excuse

The seen it tried a dozentimes, and it most always works well. Here she is now, numerous that they are used as roadsalways works well. Here she is now, bright as a new dollar and handsome as a picture, and Fil bet fifty dollars that there ica't the least thing out of order. She's sn't the least thing out of order. She's and on sleds and skates in winter, simply sulking, the same as a child or a More than once, when armles invaded grass and weeds. Unleached ashes For rheumatism in the head, rub the woman, and I know what started it. SEEDS

All remedial agents copulie of destroying life by an everice e should be arouted. M rpbine, optum, strychnine, artics, brostinus, and other powerful remodes, does as certain times, in vary small down, relieve the polient during their action in the system. But perhaps the second does, if repeated, and accurate and th-crease the suffering, and southing does do the center of the suffering, and southing does choose the death. There is no necessity for using these uncertain agents when a positive remedy lies. Ranwar's linkov Rinkus will stop the deat ex-rementing pain quicker, without obtailing the crucialing pain quicker, without establishest difficulty in atthes infant or adult.
