Yes, he said, I am the sexton.

What is it closed for? Well, mostly on account of Banks' bables.

Bables?

Sit down, and I'll tell you about it. You know Banks, he came to this place bed of the kind once made will keep in to live a few weeks ago a perfect good condition for half a century or to live a few weeks ago a perfect more, so the work should be well done.

stranger and rented a rew in this The beds should be sufficiently narrow church. It seems that Banks had three to allow of their being cut to the cenlittle bables, triplets not mor'n two ie without being trod upon. Set the months old, and then besides these, he ilants not less than twelve inches has twins about a year old. So nobody ipart in the clear, spreading the roots knew about the bables, but Banks wanted to have the little darlings baptised. that the top or crown of the plant will and he allowed to Mrs. Banks that to be about three inches below ground. rush the whole five babies into church In removing the weeds take care not to on Sunday might excite remark, you injure the young shoots, it being alunderstand. So he settled it that he'd out the weeds by hand. Salt is an exhave them christened gradually, so to cellent manure for asparages, and may be fetched little Jimmy, one of the triplets, and all went off well enough. further trouble. If strong, two-year-On the following Sunday he came a cut the year after. The part used is promenadin' up the sisle with George the young shoots, which commence to Washington, another triple, and Dr. appear in early spring, and should be Binns, our preacher, he fixed him up cut when five or six inches in height, all right. People thought it was queer, and when the head is close and firm.

But when ou next Sunday mornin, Take them from a little below the surface, with a slove-cut. It is not heat to Banks and his wife came into church continue the cutting until late in the with another baby, William Henry, erying, some of the folks couldn't help antekering. Howsever, nobody complained, and all might have been well are ripe, cut the stalks close to the bisolphide and its vapor will take fire very rapidly, and the greatest caution must be used. Moreover, it smells hormust be used. Moreover, it smells hormust be used. if Banks hadn't come along the Sunday ground, and cover the bed with a few ofter with Elijah Hunsiker Banks, one inches of manure, raking off the of the twins. Everybody laughed, and coarser portion of the manure the fol-Mrs. Banks were furious -mad lowing spring when the asparagus will as everything, you know; and when work. Elijah Hunsiker Banks hauled off accidentally with his hand and hit Dr. BARBEROUS WIRE FENCE .- Within : Binns, who was holding him during few weeks we have talked to several of the ceremony, a whack in the face, and our readers relative to the barbed wire the doctor dropped him in the water, fence, and the almost universal opinion the doctor dropped him in the water, is that it is objectionable on account of the congregation just fairly reared with laughter. Mrs. Banks turned red as and very liable to injure stock. There are, and looked as if she would like to are times when cattle will attempt to murder somebody. Well, you know, break through or jump over almost any kind of fence, and they are hable to fall in doing so. In appearance the public feeling kinder simmered down on toward the end of the week, when who should come sailing up the aisle it is more likely to be subject to attack. on Sunday morning but Mr. and Mrs. When cattle start on the run to Jamp

smile. And the Bankses, they were plain without the barbs, and then if perfectly wild with rage. Anyhow, cattle do get entangled on it the danthey baptised Tecumseh; and after gers are not likely to be of a serious nature. One thing is pretty well settled, viz: that none of the long sharp pointed barbs, having perpendicular ments ought to be made to divert liucklebery creek and run it down the middle alsle of the church, another partially as looks, are adapted for use neas being good because so many banks | along highways or where clothing will be likely to come in contact with them. ness being good because so many banks | be likely to come in contact with the likely to contact with the lin were in town; another said that Banks small enclosures, or where valuable aniwould seed about twelve pews when mals are in danger of contact with the Lis family grew up. Somebody must long, sharp points of any form. Though Lave told Banks about it, for what does they may be so shortened as to remove danger of fatal injury, disfiguring sores he do to revenge bimself? He sends and scars will be produced. own to Olarlen county to his two sisters to come and bring their children.

Locating an Aplany.—The first spoonful of lemon flavoring and rose hits barn-door at twenty pace, aimed an sick, but speedily recovered) we construct the barn-door at twenty pace, and fired the barn-door at twenty pace, and the barn-door at t So they had a couple of bables apiece, and as soon as they arrived Banks he less is the location of the apisry. The location of the apisry. The location of the apisry. The location of the apisry is the bring them to church gradt.

The location of the apisry is add a pint of thick cream. This is very nice for plain boiled rice.

The location of the apisry is a be knewn to should as he knew he shouldn't want the location of the apisry. The location of the apisry is a should as he knew he shouldn't want the location of the apisry. The location of the apisry is a should as he knew he shouldn't want the location of the apisry. The location of the apisry is a should as he knew he shouldn't want the location of the apisry. Lily, like the others. You never seed such meetings as them! The church was jammed full and just rearin'. And There is a great quantity used by the ter put them into an earthen dish or when Banks came Sunday with the bees on a hot day to keep the combs small tin pun, under meat, reasting; fourth and last of his sisters' babies, from melting down, besides what is baste them often with the drippings; trustees thought it was time to intertere. Gettin' to be a farce, you know.
So Deacon Smith he stepped up and
and semethin' or other to Banks, and
sold somethin' or other to Banks, and baby and banged the deacon with his list. And then, I dunne how it was, but in a minute there was Ranks and Dea. list. And then, I dunne how it was, but in a minute there was Banks and Deaon Smith and Descon Hubbard, and PROTECTION TO YOUNG TREES.-Banks's aster's baby and me, all a Where it is desirable to passure sheep rollin' and bumpin' over the floor, hitrollin' and bumpin' over the floor, hittin' and whoopin' in a manner that was make depredations, the bark of young years before the Christian era. He make depredations, the bark of young traces the origin of the word "chemistrees may be successfully projected by traces the origin of the word "chemistrees may be successfully projected by ridiculous to behold. And when we all came to and got straightened out, Banks picked up the battered baby of hils sister and quit, and the trustees held an informal meetin' and agreed to close the church for a month 20's to kinder freeze Banks out, and now we've shut up; but I reckon it is no san which will make the bark look.

Al-khamis, mearing he fifth. The five elementary types of the Hindoos were water, fire, earth, air and ether. The ether was regarded as the force waluable in keeping off the borer and in a healthy surface activity to the san which will make the bark look. we've shut up; but I reckon it is no sap, which will make the bark look fresh and healthy. An ounce of carbolic acid to a pail of soap suds is sufficient. tists.

So I said good day to the sexton, and went in search of another sanctuary.

pullness of the face, cough the vegetine gives in diseases of the kidneys the Vegetine gives hamediate relef. It has never sailed to cure when it is taken regularly and directions followed. In many cases it may take several bottles, especially cases of long standing. It acts directly upon the secretions, cheansing and strengthening, removing all obstructions and supurities. A great many can testify to cases of long standing having been perfectly on ed by the Vegetine, even after trying many of the known reme les which are so d to be expressly for this disease.

Kidney Complaints.

CINCINNAIT, O., March 19, ISTI.

R. STRVESS 1

Pour Sir :—I have used your Vegering for some time, and can truthfully say it has been a great benealt to me; and to those suffering from discases of the Kidneys, I cheerfully re-ommend it.

Respectfully, O. H. SMITH, policies, insuring something more than seventeen millions of dollars. This number and amount could, no doubt, Respectfully, O. H. SMITH,

CINCINNAT, O., April 19, 1811.

MR. H. R. STEVENS:

I have suffered several years with the Kidney Completed, and was induced to try Vegative.

I have taken several too les of your preparation, and I am convinced it is a valuable remedy. It has done me more good than any other medicine. I can hearthly recommend it to all suffering from Kidney Completely.
