decease, went down after her mourning into the plate. The raising may be done by levers, a little at a time, or by recently. She bought a bonnet at jackscrews. But it should be secured one place and said she'd pay sometime as it is carried up, so that it cannot go this summer. She got dress goods at over sidewise. another, and simply told them to put it on the books. She needed shoes, and she said she'd hand it in some day. She had a hundred dotlars in her pocket, but she didn't pay out a cent. She clogged. had learned something.

Cultivating the Pear.

The trees must be well cared for, vines and new wood for renewing. thoroughly cultivated, and, when the soil is not fully supplied with ali the needful elements of their plant-food, they must also be well manured, or they will result in disappointment. mortification and loss. The ground should be devoted to the trees alone though, for a few years, low, hoed crops may be allowed among them. No grass or grain crops should ever be grown with the pears; nor are weeds any better suited to their tastes. Thorough culture of the surface-soil should in fact, Mr. Layard actually found a blue-stone, and mix with four ounces roots being superficial, care should be exercised to avoid injuring them, hence the propriety of thorough preparation of the ground in the first instance, close planting, and hand labor for dwarf trees. Standards, if well cultivated for a few years until they have attained other summer crops may be grown and mortgaged much in the same way among them, can afterwards bear a deagree of neglect; or they may be seeded at interest, and market gardeners check their toc vigorous growth and while driving their oxen sang songs, promote their fruitfulness. This, howtrees have attained their full growth tions of their smooth surfaces, constitu-They had better be kept cultivated five ted Assyrian libraries, quite as lasting. or six years before being seeded down it would appear, as the printed books which make up modern libraries. One with clover, which is preferred to any has been found containing a plain, ment or furniture, first carefully scrape of the true grasses. We should not business-like notice requesting visitors count upon making a meadow of the to give to the librarian the number of pear orchard, but let the crop rot upon the book, or brick they desired to conting-paper, and put a warm iron on the sult, and he would get it for them. In the clover, and cultivate the ground for a season or two. The rows in which appear to need culture, plough under fact, these imperishable brick rethe trees stand will need careful hand labor with the hoe, or, still better, with the pronged hoe or the digging fork, even when horse labor is practised between the trees. There will be a space and show that He was not materially standing, can be reasily disposed of by washing the spot with hot soap-suds and borax—half an ounce borax to a gallon of water. Use a clean cloth to that cannot be reached by the horse cultivator, and this must be worked by hand. In large orchards, whether of dwarfs or standards, horse power is necessary to economizo labor. In such situations, corn is the best crop to grow among the trees, and this should be left standing on the ground during the winter as a protection for the trees; stalks ploughed under in the spring will help to manure the soil. After the trees have acquired such a size as to cultivator, and this must be worked by trees have acquired such a size as to preclude the growing of corn, which should never be planted within four

A Joyful Announcement to suffering millions is the glad tidings that as last a certain cure for piles has been discovered. 500,000 persons who have used Dr. Silsbee's Anakesis, pronounce it infallible. Doctors of all medical schools prescribe it in practice; empirics and nostrum venders counterfeit and imitate it, and all, without exception, admit that it is entitled to the name of "Medical Miracle." Nothing in medicine is more simple, rational, prompt and certain. It is not an accidental blunder of inexperience, but the scientific solution of a most difficult problem, by an accomplished physician of 40 years' practice and study. Anakesis is a happy combination of a scothing poultice, supporting instrument and curative medicine. It alleviates at once the most excruciating pain; it holds up the raw, sensitive tumors, and by firm, continued pressure and medication applied to the awellen veins is able to cure the most invetorate cases of blind or bleeding piles. The inventor of "Anakesis" may well be regarded as a public benefactor, and sufferers from this terrible disease will thank us for calling attention to a discovery so worthy. It is not less singular that in the circular concerning Anakesis, full directions are given for PREVENTINO PILES, a fact never before observed in any medicine the proprietors wished to sell. "Anakesis" is sold by fruggists everywhere. Sent free on receipt of price, §1,60 per bor; sumples grants by P. Neustaedter & Co., Box 3946 New York, sole manufacturers of "Anakesis." THERE is but one debtor in the Suffolk manufacturers of "Anakesis.

Health of Body is Wealth of Mind.

Radway's Sarsaparillian Resolvent

A GRATEPUL RECOGNITION

"To cure a general relation of the straight of the straight of the healing art; that reason ing power that clearly discerns deprovand any piles a remedy; that restores step by strp—by degrees—the body which has been slowly at tacked and weakened by an insidious disease, not only commands our respect but deserves not only commands our respect but deserves respect which deserves that with that wonderful remedy. Radway's Baranparillian Resolvent, which accomplishes this result, and suffering humanity, who drag out an existence of pain and disease, through long days and long nights, owe him their gratitude."—Melsoil Mexenger.

FALSE AND TRUE.

We extract from Dr. Radway's "Treatise se

List of Diseases Cured by

Radway's Sarsaparillian Resolvent,

FEVER AND AGUE. Fever and Ague cured for Fifty Cents. There not a remedial agent in the world that will is not a remedial agent in the world that will care Fever and Ague, and all other Mainfolds, Billious, Scariet, Typhold, Yellow and other fevers (aided by Radwar's Pilla) so quick as Radwar's READY RELIES.

It will in a lew moments, when taken according to directions, cure Cramps, Spasms, Sour Stomach, Heartburn, Sick Headache, Diarrhoss, Dysontery, Colle, Wind in the Bowels, and all internal Pains.

Travelers should always carry a bottle of Radwar's READY RELIES with them. A few drops in water will prevent sickness or pains from change of water. It is better than French brandy or bitters as a stimulant.

Hiners and Lumbermes should always be provided with it.

CAUTION.

All remedial agents capable of destreying life by an overdore should be avoided. Morphine, option, strychnine, arnica, hyosciamus, and other powerful remedies, does at certain times, in very small doses, relieve the patient during their action in the system. But perhaps the second dose, if repeated, may aggravate and in-crease the suffering, and another dose cause death. There is no necessity for using these uncertain agents when a positive remedy like RADWAY'S READY RELIEF will stop the most ex-cruciating pain quicker, without entailing the cruciating pain quicker, without entail

THE TRUE RELIEF. RADWAT'S READY RELIEF is the only remedial gent in vogue that will instantly stop pain. Fifty Cents per Bottle.

Radway's Regulating Pills. Perfect Purgatives, Soothing Aperi-cuis, Act Without Pain, Always Relia-ble and Natural in their Operation. A VEGETABLE SUBSTITUTE FOR CALONEL Perfectly tasteless, elegantly coated with sweet gum, purge, regulate, purify, cleanies and strengthen.
