

The solid South business is over.

Governor Hoyt has issued a thanksgiving proclamation, appointing November 25th as the day for thanksgiving.

The railroad time for passenger trains has been changed. The new time-table was put into use on Monday morning. See corrected table.

The vote is so close in California that the majority for the Hancock electors is believed to be less than one hundred.

The Pennsylvania railroad company have in operation 18 express trains from Philadelphia to New York, and 20 express trains from New York to Philadelphia.

The Presidential Electors will meet at their several State capitols and cast their votes for President and Vice President on the first Wednesday in December. Congress is directed by law to open and count these votes on the second Wednesday in February, and to declare the result.

"So near and yet so far," said a Democrat, when the truth broke in on his mind that New York had indeed been carried for Garfield. "Oh," said he, "think of it, we have California, New Jersey and Nevada, in the North, and if we could have New York that would give us just one of a majority in the electoral vote."

WHAT a pity that California, Nevada and New Jersey did not vote with the solid North. If the election had been postponed, or could have been postponed for a period of ten days, the three States mentioned would have also cast their electoral and popular votes for Garfield, for the truth of the forgery of the Chinese letter would have been made clear in the remotest district.

HANCOCK'S majority in the three Northern States that he carried will not reach two thousand, whereas the majority for Garfield and Arthur in the Northern States is over half a million. If the South had not been bull-dozed, a number of the Southern States would have cast large majorities for the Republican electors. The great North has won the victory, and its duty will be to see to it that the rights of freemen are not abridged in any State within the limits of the Republic.

WHEN the Democracy are beaten they shout fraud. The fact that they were beaten in New York was the cause of the shout of fraud that they sent up last Thursday and Friday, but it has passed away, for an enlightened people shut their ears to it, for they know that it would be impossible for the Republicans to perpetrate a fraud in New York city, and Brooklyn, where all the election machinery is in the hands of the Democracy. The men who shout fraud are ignorant of the facts involved in the elections that were held in New York and Brooklyn, or they shout fraud because of pure envy.

FOR years it was the practice of the Democratic party to shout "Sectionalism" against everybody who dared to act in opposition to the ways of the Democracy. It was a sort of thunderbolt that quieted people who did not understand that the people who shouted sectionalism the loudest were the very people who were practising it, and were so sectional that they would drive out and strike down all opposition. It was the sectional men who proposed and made a solid South, and then charged sectionalism on other people. It is the same crowd who shout fraud in New York, when all of the election machinery there is in their own hands, and the only people able to perpetrate fraud there are themselves.

THE Spragues in Rhode Island are a shooting set. Not many months ago ex Governor Sprague wanted to shoot Mr. Conkling, of New York, just what for is not known to a certainty, for both parties have been quiet about it, but it is believed that it was about Mrs. Sprague, or about her estate. Last Saturday the Governor's son, a lad about 15 years of age, attempted to shoot Robert Thompson, the trustee of his mother's estate. The ball whizzed close by Thompson's head. The boy is a promising lad for some penitentiary.

REPUBLICANS of Perry county held a grand justification over the election on Saturday evening, at Duncan.

In Oswego, New York, the Democrats have thrown out about 200 Republican votes, because they allege that the head of the Republican tickets were not printed in accordance with the letter of the law of New York State. If it would come to a close observance of the letter of the law, in this Junia county, it would be found that there are at least four boxes that would be cast out, for there are four returns papers that have not been filled up in accordance with the letter of the law. It is not necessary for a Democrat to go off to New York to find some informality in the conduct of voters, and informality in the making up of return papers of election boards. The Democracy are looking about everywhere to find something wrong, and they find that there is something wrong with their party everywhere, for it is everywhere that they have lost—everywhere but in the solid South, and in California, Nevada and New Jersey. "Is a pity for New Jersey, Nevada and California."

Congressmen Elected.

The Congressional delegation from this State will stand 18 Republicans, 7 Democrats, 1 Republican-Greenbacker, and 1 Democratic-Greenbacker, as follows: 1. Harry H. Bingham, R. 2. Charles O'Connell, D. 3. Samuel J. Randall, D. 4. William D. Kelly, R. 5. A. C. Harmon, R. 6. William Ward, R. 7. William Goddard, R. 8. Daniel Brimontout, D. 9. A. Herr Smith, R. 10. The Next Congress.

From present appearance the Senate will have a Republican majority. The House, as the returns indicate now, will stand:

THE M. E. Conference News says: Any man, of any party, who cannot endorse these sensible words of General Grant, spoken at the reunion of his old regiment a short time ago, is more of a partisan than a patriot. "We want this whole nation to be a harmonizing people, all striving to rival each other in prosperity, in developing their relative sections and upholding one common flag, one common institution, that of freedom to all without regard to race, color, religion or nationality; and I believe that result is to be worked out. How, I don't exactly see, but that it will be worked out in some way I am perfectly confident. The day will come when we will bear nothing about sections, but we will strive to rival each other as good citizens in upholding our common flag of all sections."

THE Democratic must needs have a scape goat to carry off their scold, after the defeat. When Indiana voted Republican in October, they came down on English; he became the scape goat to carry the blame of defeat. For the defeat in November they load it on John Kelly, of New York. It is their right, and as between them we have nothing to say; but the truth of the case needs no scape goat. The whole trouble with them is that the people did not cast a majority for their candidate.

UNITED STATES bonds went up on the reports of Garfield's election, for the reason that their payment is assured. If the Democracy had been successful at the polls, they would have depreciated, for the reason of a belief that exists in the public mind that if the Democracy get control of the national government they will so legislate in regard to the finance of the country that repudiation, in some form or other, will follow their work.

Senatorial Majority. Smiley has 350 majority in Perry county. Smiley has 116 majority in Mifflin county. Maible has 262 majority in Juniata county, which when summed up, leaves Smiley's majority at 204.—Splendid.

THE country can indulge in a hearty thanksgiving, that the great political questions that threatened the finance and prosperity of the nation were so disposed of by the people at the late election that no disturbance can come to the business of the country, excepting what may here and there arise by individuals recklessly indulging in the credit system.

It is amusing to hear the erring brethren agonizing for the defeat of Hancock. They attribute it to everything but the right cause, namely, that the people did not want to elect him President.

THE North took the South at its own game, and voted solid, excepting the States of California, Nevada and New Jersey. California, Nevada and New Jersey are to be pitied.

On Monday Colonel Scott and directors and other officers of the Texas Pacific Railroad Company left Philadelphia on a tour of inspection of the Texas and Pacific Railroad.

Sold Five Times.

A western paper publishes the following: A Chinese woman named Wong Ah Sing testified recently in a San Francisco police court that she had been sold five times. Her parents sold her in China, when she was eleven years old, for \$20 to a gray-haired lady who brought her to San Francisco and sold her for about \$25 to a Chinese doctor. She displeased one of the doctor's wives, and he sold her to another (Chinese) for about \$40, and the latter gave her to a woman in payment of a debt. After a while the woman sold her to a man for \$130. She was this man's wife for three years; then at the age of fifteen, she was sold to the man against whom she then complained for \$160. She lived with him five years, and then he got tired of her, and wanted to sell her to somebody in the country. She wouldn't go, and he began to beat her, when she raised an alarm. Other Chinamen came in, aided with the defendant, and told him if he would not do what he wanted for him to pretend to take her back to China, and when half way across to give her a push or throw her overboard, and make believe that she had fallen over accidentally. She said that wherever the defendant kept her she was held in restraint by his friends, who prevented her from going out of the premises.

Wild Sport in the West.

From the Home (A. T.) Index. The tontery often indulged in by vaqueros on burros and mules, causing a tragedy at the Mormon Ranch last week. A party of vaqueros were lassoing each other, sticking brush under their horses' tails and otherwise amusing themselves when one of their number, named Hawkins, himself on horseback, threw a brush under a horse ridden by a Mexican. As soon as he did it he put his horse to a run to get out of the way, but the Mexican's lasso was too quick for him, and he snatched out of his saddle senseless. Restoratives were applied, but it was three hours before he regained consciousness. He carries yet a big red stripe around his neck where the rope marked him. That kind of sport will have no charms for him in the future.

How the Ancients Ground Corn.

From the San Francisco Bulletin. Mrs. B. B. Reading has presented to the Academy of Sciences, on behalf of J. H. Stuebel, of Siskiyou county, a metae of basalt rock, found nine feet below the surface of the earth near the Oregon boundary line. The metae was used by the ancient natives for the purpose of grinding grain, and this specimen has a flat top, slightly raised at the edge of the two sides and at the upper end, and is about twenty two inches long and fifteen inches in breadth. It is supported by three legs, the upper one being an inch or so longer than the two lower, thus giving it the requisite incline so that the grain, crushed to flour by means of a heavy roller, can slide off into a vessel placed at the open end for that purpose.

A Light Hunting-Left.

Truckee (Cal.) Republican, Oct. 23. The party of Indian hunters that left Truckee last week, to go on a fortnight, to engage in the deer drive in the Sierra Nevada Mountains, in the vicinity of the Middle Fork of the American River, were very particular as to what they should carry. Besides their gun, no man was allowed to join the party who wanted more cooking utensils than a frying pan and a tin kettle. They say that a man who cannot fry meat and do all kinds of cooking on a frying pan has no business in the woods, as the best bread ever eaten can be made by winding dough about a stick and holding it over a fire.

German carp are being introduced into ponds and mill dams of Washington county.

Do We Eat Too Much?

A COMPARATIVE STUDY OF THE QUESTION OF NOURISHMENT. The amount of nourishment which a person needs, greatly depends on his constitution, state of health, habits and work. A sedentary man requires less than one whose duties demand the exercise of his muscles, and a brain worker needs more than an idler. But unquestionably the majority of us take more than we need. Indeed, food and work are distributed most unequally. The man of leisure is the man of means, and accordingly, fares sumptuously every day, while the laborer toils for eight days, while the laborer toils for eight days and finds it difficult to get enough to repair the waste of his tissue. Yet a Chittisan or a Bengali will toil under a tropical sun and find a piece of rice or jowar sufficient to sustain his strength. A Frenchman will not eat half what an Englishman engaged in the same work will demand, and a Spanish laborer, content in ordinary times with a watermelon and a bit of bread, will toil in the vineyards and grow fat on a dietary of onion porridge and grapes. It is true that Mr. Bracony, when building his continental railways, found that one English navy was worth a couple of spare-fed French. But, on the other hand, the British Columbia and California gold-diggers, than whom a more magnificent set of athletes does not exist, live in the remote mountains of the far west mainly on beans flavored with a few cubes of pork. But they also obtain the best of water and the purest air, and their outdoor life and active exercise enable them to digest every day what an Englishman engaged in the same work would find indigestible. Mr. Steiger, of Merceus killed a 3-month old calf a few days ago that weighed 360 pounds. Already a number of factories in Philadelphia and Montgomery county, in the northern part of the State, have announced the purpose to resume. The stores of J. Kern and the Post office, both at Muddy Creek, Lancaster county, were robbed on Sunday night a week of \$200 worth of valuables. There are now 25,000,000 feet of lumber on the Allegheny river which is en route for Pittsburgh on the late "drive." The bulk of it comes from Clarion county. Thomas Gray, of Huntingdon, a brakeman on the Pennsylvania Railroad was killed at Harrisburg on Saturday morning by falling from a car, which passed over his body. No clew has yet been found to the persons who on last Sunday afternoon murdered a girl named Etta Bittenbender, near Snyderville, Monroe county. The county offers \$200 for the detection of the murderers. Albert Ireland, a member of the Chester police force has eloped with Mrs. Charles L. Evans of that city. They both leave families and Ireland takes with him \$163 belonging to the county. There are four mines on fire in Pennsylvania. Keely Run near Shenandoah has been burning six months. The Coal Castle mine has been burning since 1855, the Summit Hill Mine near Mauch Chunk has been burning for twenty-five years, and the Butler Mine near Pittston has been burning three years. On Saturday a week Simon Cameron added more acres to his already extensive landed estate in East Donegal, by purchasing from James Mumma, of Lewisville, containing about ninety acres, at \$175 per acre. He has now over five hundred acres, all adjoining and his son, Senator J. D. Cameron, has a tract close by of over three hundred acres. James Paul a resident of Oxford furnace, lost his power of speech suddenly while working in a field. Physicians were in vain, and he had a prospect of being speechless for life. Recently a doctor came to him, recovered his speech and conversed with his wife. Upon awaking he found his dream literally fulfilled. He could talk as well as ever, and he has since retained the power speech. A man named John H. Dagan, who lives in Croton, a suburb of New Castle the other day found an iron pot full of gold coins. They are all "Louis d'ors" of 1665 to 1830, being coined in the reigns of Louis XIII and Louis XV. The coins seem to have been buried a great many years. They are worth \$2,975. The queer part of the story is that they were dug up at mid-night by Dagan, who found the place where they were buried by means of a "divining rod" obtained from an old Indian. This is Dagan's story, and as the coins are unquestionable genuine it is hard to find out the real in which they were buried. The Masters in Chancery for the distribution of the Milton relief fund, after being occupied thirty-one days, have completed their report. The whole fund to be distributed is \$87,819.19, of which sum \$84,457.34 has been distributed among 500 to 600 claimants, and the balance, after the payment of necessary costs, charges and expenses, is to be paid to the borough of Milton for the use of the poor who are unable to support themselves in consequence of the fire. The claims ranged in amount from \$3.50 to \$27,000. The awards range from \$5 to \$2,000.

Do We Eat Too Much?

There is an egg famine in Oil City. Downtown had a mad dog on election day. Three hundred and fifty new buildings are nearly completed at Milton. A mink in Adams county killed thirty chickens in one night. A works to make flint trails and bottles has been started in Pittsburgh. It is estimated that the tobacco crop covers 149,000 acres in Pennsylvania. Westmoreland is infested with horse thieves. The area of rain extends from the eastern to northern counties. Over six thousand gallons of apple brandy were made in Lehigh county in September. Harry Steele, a colored boy from Williamsport, was cut in two by a shifting engine at Harrisburg on Friday. The Court house in progress of erection at Scranton is to cost \$250,000. Governor Porter, of Indiana, has fair hair, very blue and merry eyes, and excellent manners. He is a widower, and has a handsome daughter who resides over his household. Noah Heistel, of Stahlstown Westmoreland county committed suicide recently by means of a pistol shot. The demand for hogs is very active in the northwestern counties. Farmers in the northern counties who experimented with the amber sugar cane were very successful, and the plant will be continued next year on a larger scale. A man named Crabbe had two fingers of his right hand shot off a few days ago by the accidental discharge of a gun he was loading at his home near Clarion at Milltown, the 9th day of November, in the year of our Lord one thousand eight hundred and eighty. JAMES K. KELLY, Sheriff, Sheriff's Office, Milltown, Pa. Nov. 9, 1880.

LEGAL NOTICES.

PROCLAMATION.—W. HERBAS, the Hon. Secy. F. JEVENS, President Judge of the Court of Common Pleas for the 41st Judicial District, composed of the counties of Juniata and Perry, and the Honorable Noah A. Elder and Francis Bartley, Associates Judges of the said Court of Common Pleas of Juniata county, have issued their precept to me directed, bearing date the 10th day of Sept., 1880, for holding a Court of Oyer and Terminer and General Jail Delivery, and General Quarter Sessions of the Peace, at MIFFLINTOWN, on the FIRST MONDAY OF DECEMBER, 1880, being the 6th day of the month.

NOTICE is HEREBY GIVEN, to the Corporation of the Peace and Constables of the County of Juniata, that they be then and there in their proper persons, at one o'clock on the afternoon of said day, with their records, inquisitions, examinations and oyer remembrances, to do those things that to their offices respectively appertain, and those that are bound by recognizance to prosecute against the prisoners that are or then may be in the Jail of said county, be then and there to prosecute against those that shall be just.

By an Act of Assembly, passed the 9th day of May, A. D. 1854, it is made the duty of the Justices of the Peace, of the several counties of this Commonwealth, to hear and determine, at the Court of Quarter Sessions of the respective counties, all the recognizances entered into before them by any person or persons charged with the commission of any crime, except such cases as may be ended before a Justice of the Peace, under existing laws, at least ten days before the commencement of the session of the Court to which they are made returnable respectively, and in all cases where any recognizances are entered into less than ten days before the commencement of the session to which they are made returnable, the said Justices are
