est possible efficiency and uniformity of results which enables physicians as well as invalids to use it with confidence. It is the most reliable remedy for diseases of the throat and lungs that science has produced. It strikes at the foundation of all pulmonary diseases, affording prompt and certain relief, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it without difficulty. In the treatment of ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of Ayza's Cherry Pecroraa are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household, for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

The marvellous cures which Aven's CHERRY PECTORAL has effected all over

the world are a sufficient guaranty that it will continue to produce the best results. An impartial trial will convince the most sceptical of its wonderful curative powers, as well as of its superiority over all other preparations for pulmonary complaints.
