B. F. SCHWEIER,

NO. 16.

Why art thou restless, foolish heart,

For love hath bound them strong, Dream on until the bitter end,

Does life so many blessings hold That thou can'st fail to grasp

Wrosile no more with fate ; Golden is every fleeting hour

The well thou should'st forget ; Fill not life's cup with bitter tears

and vain regret. Wait thou and rest beside the heart That clasps thee to its own ;

"Over the Wires."

how I came to be in the Baysville Bank n the "wee sma' hours" one dreary Dember night, some three years ago, My name was then Olive Hudson, and I bed, when I heard afar off the sound of 17 years old that same December horses feet.

We were rich folks once, but father died and left us very poor. Mother struggled along in a weary hand-to-hand fight with dash up the road, separate, and while four poverty till I was 16, and then died. She dismounted in front, four went to the rear. ad rented two rooms of Mrs. Knight, widow, also, with two stalwart sons, an aged father, and two daughters. After front were thundering at the main entrance, was adopted by the Knights, the robbers rushed to the rear basement and, although I was earning a support as door right into the arms of the police stamusic teacher in the Baysville Academy, tioned there. was like one of the family when I was

They were all in good positions, but by means an aristocratic family. John. wholesale sugar house; Tom was the night sutchman of the Baysville Bank building, and grandpa-we all call him grandpawas telegraph operator of the town, while lliner, and Dolly staved at he effice, sending and receiving messages, craulte structure, containing the post-office d bank on the first floor, the telegraph flice and a number of private law offices on the second floor, and other private fliers on the third floor. In the basement were post-office rooms for sorting the

nail, and also the large bank vault. I knew the building well, for I was fond degraphing, and spent half my leisure me perch up beside grandpa while he Cert peacefully or read the newspapers. that was the beginning assement at Dryden, the next station, The operator at Dryden was a wit, and to our office when busi- the office with grandpa, when over the aces was dull. It fell flat when grandpa wires came this message: was in the office, but if I were there I hour slipped by like a minute as we talked over the wires of every topic under the

aughing as I did so at the reflection of my they figure in the office mirror. Reyond Dryden, and only five miles from Baysville, was C---, a large commercial town, the nearest railway station, and where an office was always open for

afternoon, and the post-office was vacated at six. The bank closed at three, and by ax o'clock every office was deserted for

At seven Tom was on duty, and grandpa, who was restiess at night, was in the sahit of taking down some coffee and luncheon, as the building was only a stone's throw from the house.

Everybody else had gone to bed, and I was lingering over the kitchen fire with Mrs. Knight, dreading the plunge into my cold room, where I had allowed the fire to

The old ma ed in a flowing mantle advanced and stood beneath the balcony.

"Are you ready?" asked the mask.

"I am?" answered the meiden in a machine constructed for this purpose. The color is applied arst with a large brush, "Secure then this ladder to the rails and and then the paper is carried on to a series seend." And throwing a ladder of stiff brushes, which move diagonally to and fro across the surface, to give a smoothwho, having fastened it as desired the next ness and equality to the ground and leave moment was in the arms of her lover.

"Now, then, for the chapel of the Lady After being properly dried the paper is ready to receive further decoration. One end of the long roll, which has received a "That morning you will never see," "ground," is placed in a pair of nippers cried Don Henriquez, brother of Isabella, attached to a large printing machine, and the work of adornment goes on. The printing machine has a large cylinder, around which the paper is carried to the printing cylinders. These are made of wood, with raised patterns of brass, whose apiers of the opponents crossed, and with interstices are filled with flock or felt, The he speed of lighting was that of Henriquez cylinders, however, do not contain an entire ing, exclaimed; "Henriquez, you have a separate impression; hence it follows that each color in the paper requires a separate impression; hence it follows ties to the scene of slaughter—the mask day are capable of printing as many as was removed from the face of the departed, twelve distinct colors, and carry thirteen rollers, the extra one being used to apply the noble Pedro, Prince of Castile and the varnish. It seems amazing to the Arragon, revealed to the horror-stricken spectator to stand by and see a roll of dark-

surface, and the portions of the pattern intended to receive it retain the gilt. Then the roll of paper is drawn over another cylinder, surrounded with stiff brush es, which clear away all superfluous pow der. There are two varieties of bronze paper-the single print bronze, which contains only one color and gilt, and the colored bronze, which has a number of

The latest improvement is the embossed or pressed paper. Formerly all patterns were perfectly flat, but by a new process, portions of this pattern are raised or emstructed for the purpose, and consists in forcing the paper down on a duplicate of the original pattern, thus elevating the desired portions. Velvet paper (so-called, but known technically as "flock" psper), which is so often used in paneling, has long bothered the brains of the usual householder, yet its manufacture is exceedingly simple. The paper first goes through the "grounding" machine, and then receives a box about two feet wide, two feet deep and twenty-four feet long, with a canvas

arrangement of the room. They decorate their walls with beautiful paper and then hide the beauty behind rows of pictures.

strage on good taste is in selecting wall paper to match in color the furniture of a room. This is said to be all wrong, as wall g. Besides, paper should oppose in color the furmture and commands a fine view of Mount Vesu-which was of a room. Contrast in this respect gives vius. The volcano at night looks not un-

distance and surrounded by the lofty mountains of Catalonia. The stars were gentians of Catalonia and the crescent doubt looked partectly miserable. Perhaps moon ascending the vault of heaven; it was indeed a night of beauty—a scene to attune the mind to happiness and paace.

The service had ceased, and the congresult of heaven; it was indeed a night of beauty—a scene to attune the mind to happiness and paace.

The service had ceased, and the congresult of heaven; it some of you may have had experiences similar to mine. Now let me tell you that properly applied, gives the walls of a room of order of the wood desired, and can be rolled up like ordinary paper. This paper, small eruptions. Showers of sparks come forth at intervals of a few minutes. And occasionally streams of lava, which run and to be very sorry for boys and girls who wood. By means of machinery the manu-The service had ceased, and the congregation was slowly departing from the Cathedral of Saint Cellius. Among the last of the worshippers was a young female, closely shrouded in a mantilla, yet of so thin a texture was it that her face and figure were almost perceptible. In her hand ure were almost perceptible. In her hand and to be very sorry for boys and girls who suffer from the same thing. When you are facture of wall paper is materially hastened. An ordinary machine will print from 2,500 masses of fire. It is only at night that ordinary machine will print from 2,500 masses of fire.
