chemistry have never produced so valua-ble a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula, and all scrofulous diseases, Erysipelas, Rose, or St. An-thony's Fire, Pimples and Face-grubs, Pustules, Elotches, Bolls, Tu-mors, Tetter, Humors, Salt Rheum, Scald-head, Ringworm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neu-raigia, Female Weaknesses and Ir-reerdarities, Janudice, Affections of

regularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood, and cause de-rangement and decay. It stimulates and enlivens the vital functions. It promotes energy and strength. It restores and pre-serves health. It influes new life and vigor throughout the whole system. No sufferer from any disease which arises from imparity of the blood need decayar, who will give AYER'S SAESETSHILLA a fivi-tical. Remember, the carlier the trial, the speedier the cure.

Its recipe has been furnished to physi-clans everywhere: and they, recognizing its superior qualities, administer it in their practice.

For nearly forty years Aven's San-

SAPARILLA has been widely used, and it now possesses the confidence of millions of people who have experienced benefits from its marvellous curative virtues.
