has, upon official request, forwarded to the Navy Department designs for a steam sledge which is intended to be self-propelling and capable of towing a number of sledges.

Mr. Peter Henderson, of Jersey City Heights, N. J., does not believe that the so-called insectivorous plants derive any more nourishment from their victims than the hemlock, which destroys millions of gnats on its resinous exudations, or the thistle and burdock, which impale so many butterflies, moths, and bumble bees on their spines. In the summer of 1878 he and Mr. W. I. Tait made two experiments OTTAWA, CANADA, Dec 31, 1878. using one hundred plants in each test, those chosen being the well known Carolina fly trap. The plants which received no insects were just as vigorous as those which had been treated to the supposed animal

No one can doubt the truthfulness of the abor certificate, coming from so responsible and influer thal parties. Mr. Periey is the sentor member of the firm of Periey & Patter, one of the largest an J. F. DAVIS, of Portsmouth, Ohio, sold a one year fourteeu thousand boxes of "Sellers' Liver Fills." They cure malaria.

The Fish Commissioners of Maine have adopted the plan of marking salmon to ch-tain data with regard to the development and migrations of these fish. Several hundred salmon lately set free in the Penobscot River have been labled with light metal tags, the number on each being recorded.

The commissioners ask that whoever catches a labeled salmon in any waters of the State will forward to them the fish, for which t ey will pay an extra price, or else for-ward the label and whatever they know about the fish that wore it.

LYDIA E. PINKHAM'S Vegetable Compound has done thousands of women more good than the medicine of many doctors.

> It is believed that porssity is a property of all bodies. An experiment performed some years ago, to ascertain whether water could be compressed, resulted in proving that gold is porous-the water inclosed in a hollow sphere of gold being forced, by the violent pressure applied, through the sphere and appearing on the outside. The pores through which the liquid was driven could not have been more than the two-millionth part of an inch in diameter.

Kidney-Wort moves the how-is regularly, cleanses the blood and ravically cur a kidney disease, gravel, piles billions beadache and pana which are caused by disordered liver and st neys.
