BETTER THAN EVER.

Ehrich's Fashion Quarterly for the Fall scason of 1881 is before us, and merits word of commendation. The number is the largest ever issued, containing 120 large quarto pages of original and interesting matter, iffustrated with hundreds of excel ient engraving. The magazine is divided into two departments, both interesting to ladies; either of which, alone, is worth the triffing subscription price. Of these, the first is devoted to literature, pure and simple; and contains an agreeable melauge of interesting, amusing, and instructive articles. A special department, entitled "Our Easy Chair," is conducted by Hope Ledyard, who discusses home topics in her and is a most excellent remedy for liver well-known chatty style. An illustrated "Lesson in Dressmaking" is another useful feature; and tales, sketches, and essays, original and selected, abound.

The second division of the magazine devoted to the illustration and description of the current fashions; and so far as we are competent to judge, the work is faithfully performed. Every article needful to the dress of ladies or children is illustrated and described under its appropriate heading; and the current retail price in New York is given for every article described. With this magazine as a guide, it is difficult to see how a lady can fail to do her shopping in the most thorough and economical manner; since it tells her, not only what to buy, but also what price to pay for it. Even to those who never propose to buy outside their ewn town or village, it must be o immense value, as enabling them to plan their shopping systemtically, and execute it

The subscription to the magazine is only 50 cents a year, or 15 cents a copy. The publishers are Ehrich Bros., Eighth Avenue and Twenty-fourth St., New York.
