### A DUEL OR A WEDDING.

I am an ardent admirer of female wanty, and ought to have been an artist or a sculptor, but I am neither. I was book-keeper for Brown & Co., wholesale dealers in hides and tallow. Henry Bower, a young man of very lively disposition, was employed in the same office. We boarded and roomed torother.

One night Henry and I attended one of the lyceum lectures in W. We had pistols. hadly been in the hall five minutes before my attention was fixed upon one of the ladies in the front seat. She was a little to the right of me, but as she was talking very earnestly to the lady next to her, her face was turned towards us; and, susceptible as I am, I could not but be impressed by the beauty of

Indeed, I could not withdraw my gaze from the beautiful young lady before me. She had golden hair, and her bluest of eyes swam full of love and sweetness. Her nose was small and straight, and she had just the prettiest dimple among the blushes on either check. And then, meh a mouth ! What red lips, teeth of pearl, flashing between the roses Her wehead was smooth and broad, and her neck, I saw, as the fur cape drooped low on her shoulders, was as white as alabaster and smooth as marble. In brief, I did hear a word of the lecture.

A month passed without my seeing anything of my beautiful stranger. But about that time I received an invitation

"Then I'm going up. I don't think we'd best travel together. There's the train starting now, Good bye, Mr. Mc-Dougal, I wish you success, and for my sake don't spoil your character."

To get to M., which, by the way, is a rather out-of-the-way place, a small, one-horse town, with one tavern, two churches and a poor-house, I had to leave the cars at T., and then take a private conveyance to M., five miles distant. I could have gone by the stage, but that only leaves U., once a day, at five o'clock in the morning.

So when the cars stopped at U., I took my carpet-bag in my hand, and got out upon the platform.

There was quite a large number of people at the station, but I took no notice of any of them, except a tall, brawhy man, in a brown overcoat and slouched hat, who started for me as soon as I stepped off the cars.

I was about to move away when the slouched hat laid his hand heavily on my shoulder.
