ought to mutually inform each other and I and better results reached in the am assured a great deal of information future. We cannot but grow wiser and would be the result. A very inferior qualbetter by experience. ity of fael is sometimes farnished. In one case I have noticed that the wood for the entire term of five months was supplied for the low sum of two dollars and ninety cents. The wood was of saplings, green and wet. By putting it into the drum of the stove and first cooking and then frying it, it would burn, and in one case, white drying was going on at night on the 19th of January, 1881, the house at Straight Water, in Greenwood, was burned down. Several houses have been burned in this county in the same way. Directors should buy the best fuel that can be obtained. Draw in your imagination the following picture : The wood at the school house is grees and wet, the are is dall and on the wood pile somewhere, not in the shed. The snow on the ground is fifteen inches deep, it is Monday morning and the cold is bitter and the wind wild. Children are taking sheiter behind trees and the corner of the house while the teacher comes down the road with rapid strides, looking at his watch as he sails along to save time. The bell is rung and then the fire is made as soon as circumstances will allow, The children are now expected to take their title is good the owner too often deems

children are now expected as and books and quietly study their lessons. In relation to apparatus I have but one sentence to utter, and that is that directors have the power to enforce the use of the have the power to enforce the use of the have the power to enforce the life of the schools the books are uni-uearly all of the schools the books are uni-Have your deeds recorded.
